### PACKARD CASE TO THE COURTS

Local Automobile Dealers to Seek to Block Payment of Cars

Mayor's Machine and Two Street Department Trucks Included.

Allege Illegal Purchase and Abuse of Corporate Powers Under Statutes

Injunction proceedings to restrain Mayor George H. Brown, City Treasurer Fred H. Bourke and City Auditor Daniel E. Martin from taking any steps toward payment of the Packard touring car purchased by his Honor for use in his department and two Packard street department trucks, bought this spring for the street department, have been instituted by the Lowell Automobile Dealers' association, through its attorney, J. Henry Gilbride.

A petition for the issuance of an injunction was filed in the Superior court today.

### SHOPMEN PLAY A LONE HAND

Fears That Other Unions Would Join Strikers Virtually Abandoned Today

Maintenance of Way Employees to Stay on the Job Under Protest

Hooper, McMenimen and Grable Given Credit for Averting General Strike

NEW YORK, July 5.—Officials of the chief railroads in the New York district today reported the return to work of hundreds of the striking shop craftsmen who walked out last Saturday. They asserted that the situation in most shops was "much improved" and that recruiting of new men to fill vacancies was going on at a rapid rate.

**General Strike Averted**  
CHICAGO, July 5.—(By the Associated Press.)—Railway shopmen who walked out their jobs last Saturday played a lone hand in the rail strike today. Fears that other unions would join the striking shopmen were virtually dispelled. The first wide rift in railroad strike clouds showed when maintenance of way employees, who include track workers and other com-

### Boston and Maine Car Shop Strikers Hold Meeting in the Colonial Theatre

With an attendance that taxed the capacity of the hall, the members of the federated crafts of the Boston & Maine carshops in Billerica, who went out on strike last Saturday morning as a protest against a wage reduction announced by the federal railroad labor board, held an enthusiastic meeting in the Colonial theatre in Middlesex street this morning.

The meeting was secret and only the members of the crafts were admitted into the hall. The principal speaker was Robert Fechner, a member of the executive board of the International Association of Machinists of Boston.

Conditions pertaining to the strike were discussed at length by the various speakers and the strikers were urged to stick together and conduct a clean fight.

At the close of the meeting officials of the crafts informed The Sun reporter that 12 of the foremen of the carshops had been elected to represent the strikers at the meeting.

### FOR COMPLETE MOTORIZATION OF LOWELL FIRE DEPARTMENT

Loan of \$50,000 to Be Presented to City Council Tomorrow Night by Committee on Public Safety—All Horses Would Be Eliminated by Purchase of Two Tractors, Two Triple Combinations and Extra Piece

—Chief and Committee to Urge Passage of Order

An order to borrow \$50,000 for the complete motorization of the Lowell fire department, that would embrace the purchase of two tractors, two triple combination pumping engines, two cars for deputy chiefs and an extra piece to be used so that an old piece now in the service may be held as a utility machine, will be introduced in the city council tomorrow night by Councilor Fred A. Sadler, chairman of the committee on public safety.

At a meeting of the committee this noon, with Councilors Sadler, Queenan, McFarley, Adams, McMahon and McMenimen present, it was unanimously voted that an order in this amount be presented and that the committee as a whole should vigorously urge its passage.

Chief Edward F. Saunders of the department also was present and outlined the need of more apparatus, particularly the advisability of complete motorization. If two tractors should be purchased, one would be attached to the Babcock aerial ladder truck at the Central station and the other to the aerial truck at the West Centralville house. Only recently it has been shown that horses are unable to drag this piece more than half way up Christian Hill.

Two triple combinations would be placed as to eliminate other horse-drawn apparatus, leaving the present steam pumping engines in reserve in case of a serious conflagration.

The recent trip to Lawrence by members of the public safety committee, on the occasion of the fire chiefs' convention and the attending demonstration of the new apparatus, purchased this year in that city, convinced the councilors that Lowell's need of a completely motorized department easily ranks with Lawrence and at that time a loan order in an amount sufficient to allow this to be done was suggested.

### Bandits Board Street Car, Disarm Officer; Take \$100,000 From Messenger

ST. LOUIS, July 5.—Bandits today boarded a Tower Grove street car, disarmed a policeman, who was accompanying Joseph Mosson, messenger for the Tower Grove bank, and escaped with a satchel containing \$21,200 in currency and more than \$78,000 in checks, the messenger was conveying to a downtown bank. Witnesses said there were seven armed bandits.

### FIREWORKS DISPLAY AGAIN POSTPONED

Owing to the continuance of unfavorable weather, the display of fireworks on the South common, postponed from last night, again has been postponed, this time until tomorrow evening at 9 o'clock, weather permitting.

### FOURTH OF JULY CELEBRATION

Merry-Makers Display Commandable Enthusiasm in the Face of Big Odds

Rain Upset Lowell's Fourth of July Program, But Everybody Was Happy

Fireworks Display Postponed Until This Evening—Midway in Full Swing

Lowell tried hard yesterday to conduct itself just as if a warm and friendly sun was shining upon its Fourth of July celebration, but it was not a complete success and by the time evening rolled around, even the spirits of the merry-makers showed the effects of the dampness and thousands seemed perfectly satisfied to turn homeward and let the rain have full possession.

All day long it was an uneven battle, with the elements holding the whip hand. When it was not raining, low hanging clouds carried a constant and menacing threat and although a huge crowd went to the South common in the early evening for the scheduled display of fireworks, it was with a feeling of apprehension and no one seemed surprised when it was announced that the display would be postponed until tonight, weather permitting.

So today, Lowell is experiencing a

### MILL WILL POST WAGE REDUCTION NOTICE

Notices announcing the specific amount in the reduction in wages at the Merrimack Mfg. Co., will be posted in the plant some time this week, and when the operatives return to work next Monday morning after a shutdown of a week, they will know just what their wages will be in the future. The readjustment of wages was announced by Agents Wadleigh last week, will go into effect next Monday morning, July 10.

Agent Wadleigh informed The Sun this morning that he is not yet ready to state just what the reduction will be, and when asked if it would vary according to the nature of the work, he said he did not know. He intimated that the readjustment is now going on and he further stated that notices will be on the walls of the mill when the plant reopens next Monday morning.

At strike headquarters it was stated this morning that because of the inclement weather the attendance at the meeting of the unorganized employees of the Merrimack mills, which was held in Trades and Labor hall at 10 o'clock, was not as large as anticipated, but nevertheless, there was a fair attendance. Those present were instructed as to what to do if they were not satisfied with the announcement of the mill officials, and several of them have signed up to become members of unions affiliated with the United Textile Workers of America.

Similar meetings will be held tomorrow, Friday and Saturday mornings. General Organizer Thomas J. Reagan of the U.T.W. of A. spent the holiday at home and he left this afternoon for Ware. From there he will go to Adams and Cohasset, N. Y., and Burlington, Vt., and he will return to Ware Sunday for a big mass meeting.

A special meeting of the strike committee will be held this evening at strike headquarters at 7.30 o'clock. Arrangements are being made for a mass meeting of all the strikers and employees of the Merrimack on the South common Sunday evening at 7 o'clock. Out-of-town speakers will address the gathering.

### ALLEGED ASSAILANT IN STABBING AFFAIR HELD IN \$4000 BONDS

Boisjoly in Serious Condition as Result of Holiday Fracas and Michael Kazamias Is Instances of Knife Play Brought Out in District Court Cases Today

Charged with the stabbing of Alkanese Boisjoly, Michael Kazamias was ordered held in \$4000 when he appeared in police court before Associate Justice John J. Pickman this morning. He pleaded not guilty to an assault with a dangerous weapon. Boisjoly is in the dangerous list in the Lowell Corporation hospital with knife wounds in his abdomen. A report of his condition to the police today contained the information that he is still in a serious condition and, although Boisjoly is held out for his recovery, it will be several days before he passes the danger zone. The case was continued to July 15.

This stabbing was the most serious of three reported over the holiday. William Smith admitted an attack with a knife upon Francis Bouchard and was held in \$1000 until July 8. George Rotsekas pleaded not guilty to an assault with a knife upon Francis Trainor. He is already under bail. The case was continued to July 12.

**Moonshine Purchase Involved**  
Neither Bouchard nor Trainor are reported as seriously injured. Bouchard was taken to St. John's hospital suffering from stab wounds below the heart and in the back. According to the story told by the police, Smith had been given money in South Lowell to purchase liquor for Bouchard and a party of friends.

Smith claims to have left with the money and become interested in a crap game which deterred him from doing his errand as promptly as he intended. He avers that when he returned to the Bouchard party an attempt was made to "beat him up" which he resisted, causing him to draw the knife. Bouchard was said to have been stabbed in the mixup which followed. Smith was arrested a short while later, while Bouchard was taken to the hospital and treated for his wounds.

The police say that Trainor, who

### MEDALS FOR GOLD STAR MOTHERS

Although bids have been received by the city from three or four local jewelers to supply 160 gold medals to be presented by the city to Lowell's gold star mothers, Mayor Brown will not award the contract until the city council passes its additional appropriation order, included in which is \$2200 for such medals.

The mayor also said today that he contemplates naming a committee, to be headed by Col. Charles A. Stevens, to decide upon which one of the several sample medals submitted shall be chosen.

### RIVER HEARING POSTPONED

Definite information that the hearing scheduled to be held in Washington on the 11th of this month on the question of making the Merrimack river navigable is to be postponed until next fall was received today by Mayor George H. Brown. The mayor received a letter from G. M. Hoffman, colonel of engineers, saying that a postponement had been decided upon to some date in the fall to be fixed later. Colonel Hoffman is a member of the board of engineers for rivers and harbors.

### BIDS ON COAL

The purchasing agent today received bids to supply anthracite and bituminous coal in needed tonnage to city schools. The E. A. Wilson Co. bid \$9.07 per net ton on soft coal; Horne Coal Co. bid \$9.33 and D. T. Sullivan submitted several bids ranging from \$9.33 to \$9.95, dependent upon deliveries to schools. The Sullivan Co. submitted a price of \$10 per ton on anthracite, the only bid on this grade to be received.

Last Occupants of the Gresham Hotel Surrender—End of Battle Believed Near

Casualties During Week's Fighting Placed at 60 Killed and 260 Wounded

DUBLIN, July 5, (3 p. m.)—(By the Associated Press.) Ten buildings in Sackville street, the republican insurgent stronghold, were ablaze at this hour. The irregulars were still holding out in the Granville hotel, and were firing from the windows, surrounded by an inferno of flames. Five men, the last occupants of the Gresham hotel, have surrendered. The end of the battle is believed to be near.

### National Call to Arms

DUBLIN, July 5.—(By the Associated Press.)—It is learned on excellent authority, says the Press Association this afternoon that the Irish Provisional government intends to issue a national call to arms tomorrow.

### Ex-Irish Envoys Arrested

## 10 Buildings Are in Flames

Continued  
In their Sackville street stronghold was resumed at 1 o'clock this afternoon after a few hours' lull.

### Hamman Hotel in Flames

The Hamman hotel, which has been one of the principal points of the defense was ablaze shortly after midday, and the flames were spreading to adjoining buildings on the south. Shortly after the fire was observed in the hotel, a white flag was hung out, but when troops and firemen reached the building they were fired at, and the supposed flag was withdrawn.

The National army forces then trained an 18-pounder on the Hamman and on the general post office next door, on the north side where the main force of irregulars was believed to be concentrated.

The postoffice is more solidly constructed than the other buildings of

the block and it is believed that it is there the republicans soon will wage their final fight.

### Nationals Take Gresham Hotel

The Free State forces are reported in full possession of the Gresham hotel, which is separated from the postoffice by the Crown and Granville hotels. From the upper stories of the Granville the defenders were continuing to maintain a sharp rifle fire.

Dense volumes of smoke are pouring from the blazing buildings and occasional explosions were heard.

At mid-afternoon, the fire was reported to have spread to the postoffice.

### Crowds Watch Battle

A vast crowd on the O'Connell bridge, the southern terminus of Sackville street, watched the tragic spectacle being enacted a few hundred yards away, heedless of the peril of flying bullets. Red Cross workers were carrying on their work fearlessly.

It is not known whether Eamon de

Valera and the other republican leaders including Harry Boland and Countess Markievicz, are with the garrison.

It is believed a considerable number of the defenders escaped, and it is considered probable that they have gone to join the bands organizing in the Dublin hills, supposedly under the leadership of Erskine Childers. A force of national army men already has been dispatched to counter this move.

### Big Fight Imminent

Another big fight is believed to be imminent in County Donegal. A large number of irregulars is concentrated at Glenties castle, which is surrounded by forests and well situated for defensive purposes. It is estimated that 600 republicans are there. They have installed the wireless outfit captured from the British station on the Donegal coast and have commandeered and fortified many of the farmhouses in the vicinity. All the

approaches are reported to have been mined.

### Priests Intervene

Free State troops are gathering in force for an attack on the castle with artillery and possibly bombing airplanes.

Catholic priests have intervened in an effort to arrange terms, but Free State leaders have stated they will accept nothing short of unconditional surrender. The battered exterior of the Hamman hotel and the Hilbertian Bible society's premises adjoining, show grim evidence of the 18-pounder field pieces and armored cars of the provisional government forces.

### Nationals in Control

The southern part of the city is completely controlled by the provisional government and all approaches to the main streets are held by national troops. Hails for arms are being carried out successfully in many areas. Troops operating from Curraigh inter-

cepted a party of irregulars at Ballin-

cepted and captured 21 with arms and ammunition, and three motor vans. People living in Marlborough street, which was the irregulars' line of defense behind Sackville street, have been able to emerge from their terrifying seclusion. Some of them had for days been experiencing difficulty in obtaining food. Red Cross workers removed them to other parts of the city where they are being fed and cared for.

Persons have been observed signaling the prisoners in Mountjoy, where Rory O'Connor and his defeated Four Courts garrison are confined. Information also has been sought by various parties as to the disposition of the guards at the prison and the latter have been instructed to fire on suspected spies.

### 60 Killed, 200 Wounded

Casualties during the week's fighting in Dublin are placed at approximately 60 killed and 200 wounded. Considerable activity by both sides in the area outside Dublin was evidenced by reports reaching here today. Kingstown proceeded in motor lorries

under command of Brig. Gen. Mac-

Nell for the Dublin hills, where irregulars are reported. In the mountains between Enniskerry and Brittas, County Wicklow, several motor vehicles that have been commandeered by irregulars have been discovered abandoned. Armed men yesterday raided small towns in Wicklow.

### Silgo Isolated

Reports from Silgo say that town is isolated from the north. No trains are reaching Enniskillen, while bridges on the road from Enniskillen to Cooloney, County Sligo, have been blown up.

The republicans have installed at Glenveagh castle, County Donegal, the wireless seized recently at Bunbeg naval station in that county. Houses in the neighborhood of the castle, are being commandeered and fortified.

It is believed that when the attack by the national army is launched upon the castle the assaults will have the support of artillery, armored cars and airplanes.

Countess in Uniform  
DUBLIN, July 5.—Many men driven

from occupied posts have managed to escape capture by the nationals and the actual strength of the garrison which is surrounded in Sackville street is a matter for surmise, says the Irish Independent.

When the Gresham hotel block falls, important captures may be made. The newspaper declares that Countess Markievicz, in uniform, entered the Gresham last night.

### Insurgents Claim Successes

CORK, July 5.—(By the Associated Press) A statement from republican headquarters at Mallow reports considerable military activity in southern Dublin county, where the republicans have evacuated and burned all the barracks not deemed fit for defense, concentrating on the Wicklow border.

The republican communiqué declares that the English are handing over huge quantities of armored transports, arms and equipment to the Free Staters. The southern republican division is declared to hold all the barracks and

## Marconi's "Radio Searchlight" Takes Terror From Stormy Seas

MARCONI'S "RADIO SEARCHLIGHT" ABOVE. BELOW, LEFT, CLOSE-UP OF THE TRANSMITTER. CENTRE, THE RECEIVER. RIGHT, DIAGRAM OF THE TRANSMITTER.

By PAUL F. GODLEY

America's Foremost Radio Authority  
A radio searchlight in operation!  
That was the demonstration which set American engineers gasping when Senator Guglielmo Marconi, father of wireless, addressed them at a meeting recently in New York.

The wave used was exactly one meter in length. The antennae of both the transmitter and receiver were about a foot high. All the auxiliary equipment was of like proportion. Considering the positiveness of the action produced at the receiver by the transmitter, the demonstration was most remarkable.

The transmitter consisted of a foot of copper wire held up vertically to serve as an antenna, a miniature vacuum tube and an oscillator circuit comprised of about three inches of wire and a tiny condenser built from alternate layers of tinfoil and mica.

This type of vacuum tube is quite common in England, where it is used to convert the energy supplied by batteries into oscillatory energy having a frequency of 300,000,000 cycles a second.

**Simple Receiver**  
The receiver used a like antenna which had associated with it an extremely small tuned detector circuit of a crystal detector and a few turns of wire on a half-inch tube. To this receiver was attached a loud-speaking amplifier so that 1500 auditors could hear the signals.

Wave lengths as short as these may be reflected the same as light waves. The transmitter was housed within a reflector. When this was turned even slightly away from the direction of the transmitter, no signals were recorded at the receiver.

Marconi says that when these waves strike metal objects they are reflected. Even in the heaviest fogs, steel vessels many miles away may be located and their course determined by the radio beams reflected from them.

**Short Waves**  
The inventor advocates the use of

these shorter waves for the protection of shipping during heavy weather. He points to the successful use of this method up to a distance of 10 miles from lighthouses which are now in operation on the coast of Great Britain.

As much as one horsepower of electrical energy has been used on but slightly longer waves and reliable telephone conversations have been held over distances of 100 miles. Reflectors were used at both transmitter and receiver.

Many amateurs may utilize these wave lengths in their experimental work. It is expected that endless new applications of radio will be forthcoming as a result of their experiments.

**RADIO PRIMER**  
Natural Frequency—The natural wave length of an aerial or circuit without the introduction of any other part that would tend to alter this wave length.

**PAYMENT OF MEXICO'S FOREIGN DEBT**

MEXICO CITY, July 5 (By the Associated Press).—Approval of the agreement reached between Finance Minister De La Huerta and the International Bankers in New York concerning payment of Mexico's foreign debt is being withheld by President Obregon until Huerta returns from New York and congress gives its approval, according to an official statement.

**NEW REGULATIONS BY U. S. TREASURY**

WASHINGTON, July 5.—New regulations covering stamp taxes on documents in conformity with the revenue act of 1921, were issued today by the treasury. The regulations cover all forms of documentary stamp taxes except on certificates of stock and sales of products for future delivery for which rules are to be promulgated shortly.

## LARGE AND VARIED TENNIS PROGRAM

WIMBLEDON, July 5. (By the Associated Press).—A number of the tennis players who were scheduled to play in the Wimbledon tournament today were absent because of rain and several others down for a decision made today's program in the grass court tennis championships both large and varied.

Chief interest in the matches in the amphitheatre centered in the singles contest between Gerald Patterson, the whirlwind Australian, and Cecil Campbell, the latter described as "England's last hope."

The meeting between Mrs. Mollie Blumstedt Mallory, the American woman champion, and Mrs. H. Eglinton was counted upon to supply interest, largely from its bearing upon Mrs. Mallory's progress toward possible meeting with Miss Suzanne Lenglen. A good gallery also was assured for the mixed doubles match with Pat O'Hara Wood and Miss Longlen on the one side, and G. Sherwell and Miss D. Kemmis Betty on the other.

Mrs. William Howard Taft was to be a Wimbledon spectator today, and the authorities invited her to use the royal entrance to the amphitheatre.

## RUSSIAN BUDGET "A FANTASY OF FIGURES"

THE HAGUE, July 5 (By the Associated Press).—"A fantasy of figures" is the characterization applied today by European experts here to the Russian budget, submitted by the soviet representatives.

"Still they are intensely interesting," said M. Alphonse, the French expert. "They clearly demonstrate the Bolsheviks are gradually abandoning communism. They uphold the state trade monopoly but are ready to grant individual trade licenses."

**G. O. P. MAY MEET AT SAN FRANCISCO**

SAN FRANCISCO, July 5.—Strong sentiment has been created among the chiefs of the republican party in favor of San Francisco as the scene of the 1924 national convention, according to word received here from Robert L. Webb, executive secretary of the San Francisco convention league, who is in the city.

Reports that the democratic convention delegates who nominated James M. Cox here in 1920, had been entertained very satisfactorily, were said to be influencing the republicans.

## SENATE RECONVENES

G. O. P. Leaders Prepared to Present Petition Invoking

Cloture Rule

WASHINGTON, July 5.—Republican leaders on the reconvening of the senate today were prepared to present their petition for the invoking of the existing cloture rule with a view to curbing debate on the tariff bill. Although between 55 and 60 republicans have signed the petition, majority leaders said it was improbable that the necessary two-thirds vote for cloture could be obtained when the motion is voted on, probably this week. Under the rules the motion must lie over a day before a vote is taken. While several democrats were said to favor cloture, the minority as a whole were expected to line up against it.

Although expecting defeat of the cloture, republican leaders said it would at least demonstrate a desire on the part of the majority to bring the tariff measure to an early vote. If the move failed and substantial progress were not made on the bill, they were prepared, they said, to lay it aside and make a fight for adoption of the proposed new cloture rule, recommended recently by two republican conferences to invoke cloture by a majority instead of a two-thirds vote.

**DISORDER IN LITTAU, SAXONY**

BERLIN, July 5.—A disturbance is reported at Littau, Saxony, in connection with yesterday's nation-wide demonstrations staged by the republicans. The demonstrators seized 100 rifles and a store of ammunition from a shooting range and marched to the court house where they demanded the release of the prisoners. They also called upon a local newspaper to withdraw an article objectionable to them. The results have not been learned here.

## What "Three M's" Taught Peggy Joyce

PEGGY HOPKINS JOYCE

BY JACK JUNGMEYER

LOS ANGELES, July 5.—What dividends has Peggy Hopkins Joyce drawn from her varied ventures in men, matrimony and millions?

What tips has she for other fair dealers in heart-ware who have envied "the million-dollar doll" her chances at happiness de luxe?

These, from the own carnal tips, as she settles down to a prospective business career and calculates the salvage of her romantic shipwrecks:

"I have learned from experience that hard work and sincere effort, not pampered idleness, point the only way to happiness."

"The gay white ways don't even give an approximation of it."

"My possessions"—said to be somewhere near \$3,000,000—"and my heart conquests have brought me nothing but wretchedness."

"I don't know what sort of man I should prefer if I were to look for one. Every ideal I have had has been woefully shattered."

"My respect goes to the man who is clever, courteous and considerate, who has brains and personality. Irrespective of his appearance or possessions."

"It is that type that starts the real glow in a woman's heart, not jewels and motors."

## Packard Case to the Courts

Continued

junction will be filed tomorrow with the clerk of the supreme judicial court by Mr. Gilbride, and it is expected that a preliminary hearing on the matter will be ordered within a very few days.

Action is being brought by the association on the claim that the mayor's Packard was registered with the city registrar of motor vehicles two or three days before competitive bids were opened by the purchasing agent, thus making the bidding competitive in name only. As to the two Packard trucks, it is alleged by the association that they were purchased without the sanction or approval or knowledge of the board of public service and without bids either being called for or received.

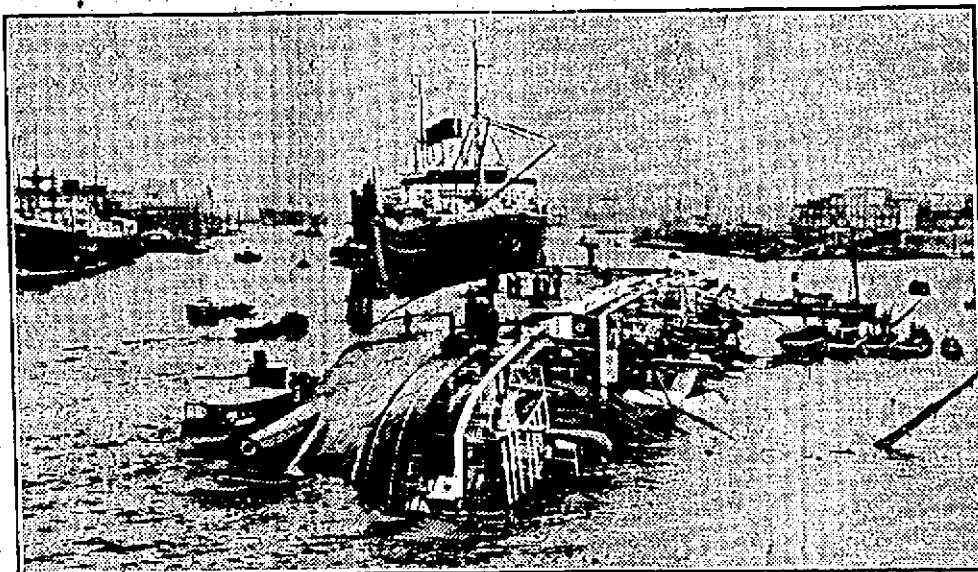

Legally, the action of the association, through its attorney, is based on Section 58, Chapter 40 of the general laws, which is captioned, "Abuse in Corporate Powers and Illegal Expenditures." In substance this section says that if a city is to incur obligation in any manner other than that for and in which such city has legal and constitutional rights, the supreme judicial or superior court may, upon petition of not less than 10 taxable inhabitants, determine the same in equity and may, before the final determination of the cause, restrain the unlawful exercise of abuse of such corporate powers.

In addition to this section of the general laws, the association bases its contention of illegality on two sections of the city charter having to do with the advertising and opening of bids upon all purchases made in behalf of the city in excess of \$500 in cost.

The city this year has purchased three Packard trucks of five-ton capacity for street department use. One of these has been paid for, but two others still stand as unpaid charges. When the board of public service learned of the purchase of the two last named trucks, items covering them were stricken from the bill sheet and no bills therefor have reached the city auditor.

In the case of the Packard touring car purchased by the mayor, no charge has appeared in the auditor's office, nor has any bill been received. The bid submitted on this car was \$2938.

The court action on the part of the local dealers' association was forecasted several days ago, when it became known that a meeting of the asso-

## Lenroot Warns Tariff Bill Leaders

WASHINGTON, July 5.—Majority leaders in charge of the administration tariff bill were warned today in the senate by Senator Lenroot, republican, Wisconsin, a leader of the progressive group that unless some of the high duties proposed in the tariff bill were "brought within reason" he would reserve the right to vote against the measure.

## 9300 Guardsmen to Go to Camp

BOSTON, July 5.—Lieut. Col. Frederick W. Stopford, in charge of national guard activities in New England, announced today that 500 officers and 8800 guardsmen of the New England states would go to camp for two weeks at various places in this section, on Saturday, July 8.

## Car Strikers Hold Meeting

Continued

Millieria shops were discharged Monday after refusing to perform manual labor in the plant. It was stated that of the 55 foremen who remained on the job after the walk-out, 12 of them refused to do the work formerly done by the mechanics of the plant and that as a result they were discharged and ordered to turn in their passes.

As far as could be learned by other attempt has been made by the shop officials to fill the places of the strikers at the car shops, but a machinist and a blacksmith, it was stated this noon, are at work at the roundhouse in Middlesex village, where the strike is also in effect.

Officials of the crafts stated this noon that an attempt to put strikers back at work yesterday, was foiled by the pickets who were on duty at the roundhouse. Six men were on their way to the roundhouse when they were pulled up by pickets. After being informed that a strike was on in the shop, the six men turned back and went to strike headquarters. There they informed the strikers that they had been hired by a construction company in Boston to do what they were told would be structural work in Lowell, and they claimed they were not informed that they were hired in as strike-breakers. After they had told their story the men were given their fare to Boston and were escorted to the railroad station, where they all boarded a train for the Hub.

The strikers will hold daily meetings in Colonial hall, Middlesex street, and members of the executive board stated today that perhaps tomorrow they will issue an official statement relative to the strike.

Members of the various crafts of the carpenters will be paid off tomorrow at No. 2 freight house in Thorndike street as follows:

Division 1, 3 a. m.; Division 2, 9:30; Division 3, 9:40; Division 4, 10; Division 5, 10:20; Division 6, 10:40; Division 7, 11; Division 8, 11:20; Division 9, 11:40; Division 10, 12 m.; Division 11, 12:30 p. m.; Division 12, 1:20 p. m.

men labor, definitely abandoned the idea of a walkout at this time.

Credit for averting a rail strike, which threatened to become general among all classes of railroad labor except the "big four" brotherhoods and telegraphers, was generally conceded to Ben W. Hooper, chairman of the United States railroad labor board; W. L. McMenimen, labor member of the board, and E. F. Grable, president of the Maintenance of Way Men—the "big three" at the conference.

As a result of the holiday conference nearly 40,000 maintenance men, who for a week hovered on the verge of a strike after voting overwhelmingly in favor of a walkout, will remain at work.

Maintenance men will stay on the job under protest against the \$50,000 cut in their wages, pending negotiations for a readjustment of wage scales upon an appeal by the employees.

With their common labor problem out of the way, railroad officials throughout the country were waiting today for the first definite disclosure of the effect of the shopmen's strike. Over the holiday rail officials said, it was impossible to determine how many employees of the six shop crafts actually had responded to Saturday's strike order. When the whistles blew today the railroad began on inventory of their shop workers.

Negroes to Replace Strikers

PARKERSBURG, W. Va., July 5.—About 50 negroes have arrived here from eastern and southern points and will be employed as car cleaners in the Baltimore & Ohio railroad shops. It was announced last night. The negroes' camp is surrounded by guards.

More Men at Work

BOSTON, July 5.—Officials of the Boston & Albany railroad, after a checkup of repair shop forces following the holiday, reported more men at work than on Monday. Train service, it was said, continued normal.

Full forces of maintenance of way workers were on duty at important yard centers in Allston, West Springfield, North Adams and Rensselaer, the road's statement said.

military posts in the large area to which it is assigned, "except at Skibbereen, where the attack continues."

It is claimed that large territories in mid-Limerick are under the undisputed control of the republicans.

As regards the provisional government's statement that national forces had attacked and captured the republican barracks at Cullin, Mullingar and Thomastown, the statement says these had all been previously voluntarily evacuated as being of insufficient military importance to justify the maintenance of garrisons in them. It adds that the republicans captured the national barracks at Abbeyfeich, Queens county, yesterday, and remain in occupation.

Irish Rebels Holding Out

LONDON, July 5.—(By the Associated Press.)—Irish insurgents in Dublin were still holding out today, according to meagre advices. National troops resumed their artillery bombardment of rebel positions in O'Connell street last night. The return fire was comparatively feeble. Some correspondents intimate that the continual plugging of shells into the walls of the buildings is designed to explode mines or ammunition the defenders may have left.

Curiously as to Eamon de Valera's whereabouts is still unsatisfied. While some reports say that he together with Cathal Brugha, Harry J. Boland and Austin Stack, remains within the bombarded buildings, the prevailing belief is that he and his companions are safe in another part of the city.

The reported capture of Countess Markievicz and several women snipers has not been confirmed. The story of the departure for Ireland of several fighting airplanes bearing the markings of the Irish Free State, is now said to have been premature. It is stated, however, that an agent is here negotiating with the British authorities for the purchase of planes.

Rory O'Connor and his men who surrendered after the battle of the Four Courts are being treated as prisoners of war, according to Dublin advices. They are allowed books, tobacco, change of clothing and the like.

De Valera Missing

LONDON, July 5. (By the Associated Press.)—Winston Churchill, the colonial secretary, announced the house of commons this afternoon that the attack by the Irish national army in the Sackville street area of Dublin, was still preceding at 2:45 p. m. The whereabouts of Eamon de Valera was unknown, he said. "It is uncertain whether he is within the cordon of the national troops or has deserted the command and escaped," added the secretary.

Mr. Churchill said his information confirmed the report that a white flag displayed by the republicans in the blazing buildings had been suddenly withdrawn and fire opened on the firemen, one of whom was wounded.

## Jack Pickett, Veteran Ball Player, Dead

CHICAGO, July 5.—John Thomas "Jack" Pickett, a familiar figure on professional baseball fields in the days of Cap Anson, is dead here today. For 24 years he had been manager of the A. G. Spalding bat factory. Pickett played with Philadelphia, Baltimore, Brooklyn and other teams of the old National league and wound up his career on the diamond as manager of the Green Bay team in the Wisconsin-Illinois league.

## DROWNED AT BIDDEFORD JULY 4TH OBSERVED THROUGHOUT FRANCE

Mathias Doyon Lost Life—  
Mayor Drapeau Nearly  
Drowned in Rescue Effort

BIDDEFORD, Me., July 5.—Mathias Doyon of Biddeford was drowned while bathing yesterday afternoon at Fortunate's Rocks near here, and Mayor Edward H. Drapeau of this city almost lost his life in attempting to save Doyon. Mayor Drapeau towed the drowning man to within 20 feet of the beach and then saved himself with difficulty, reaching the shore exhausted.

The two men went in bathing when the tide was going out and there was a heavy undertow. Doyon, a feeble swimmer, was carried out to sea, and Mayor Drapeau swam to his assistance. Doyon at first threw his arms about the mayor's neck and both were in danger of drowning, but finally he was persuaded to hold Mayor Drapeau's foot while the latter made for shore. A short distance from land Doyon let go and was carried out again.

Mayor Drapeau collapsed when he touched the beach and was assisted to his summer cottage by spectators. Last night he was removed to his home here. Doyon, who was 45 years old, was a native of Canada but had lived here 30 years. He leaves a widow and two children.

## FEROCIOUS FISH CAUGHT

Consternation Has Spread  
Through Bathing Circles  
Near Montreal

MONTREAL, July 5.—Consternation has spread through bathing circles here by the capture of a ferocious fish recently caused the death of Miss McClatchie of Montreal when she was fatally bitten while swimming, off the Florida coast.

Fishing in Lachine rapids, two men caught a barracuda, which they were forced to stab to death when it attacked them.

## BIG CELEBRATION IN GRANITEVILLE

Despite the inclement weather, the Fourth of July celebration was held yesterday in Graniteville according to schedule. The street parade was the feature attraction on the day's program. Headed by Chief of Police William J. Healy, and followed by the Abbot Worsted band, James P. Larkin, leader, the parade made a big hit along the line of march.

Those responsible for the success of the parade were P. Henry Harrington, Edwin Packard and J. A. Healy, who also served as a committee of judges to decide the winners for the best appearance in line. After careful consideration prizes were awarded as follows:

Best feature, won by the Highlands division, turkey truck and toy wagons; second, Western Legion band. "Best Boys with Flags," Mrs. Payton Packard, Sgt. Joseph A. Perkins; best individual prize won by Miss Regina McLenna as "Columbia"; second, Miss Beatrice Elliot; funny costume, Mrs. H. Brule, "Old Colonial"; 2nd, Miss Hattie Boyd as "Uncle Sam." The following were adjudged worthy of honorable mention:

For special features, Abbot Worsted band and members of Cameron circle; individual costumes, Misses Bertha Reeves, Maud Whitley, Doris York; comic costumes, Della Mathias, Mary Profitt, Mr. Degagne and partner, Irene Reeves, Irene Carpenter, Oscar Benson. A long list of sports followed the parade and prizes were awarded to the following winners:

PARIS, July 5.—Independence day, which now has become an established institution in France and other European countries, was observed generally with the participation of government and local authorities. There were the usual decorations at the George Washington monument and the other features common to all the celebrations. The head of the French government took a prominent part in the day's observance, and delivered the principal speech at an Independence day dinner in Paris yesterday.

After reviewing the birth of the American republic and the French participation in the Revolutionary war, M. Poincaré declared: "Our two governments have again found themselves side by side on the morrow of new hardships suffered in common and also new common successes. After we had in the 18th century, according to Benjamin Franklin's words, defended together in America, the liberty of Europe we had to defend together in Europe the liberty of America, threatened, like that of the whole world, by German imperialism."

"Sylpho-Nathol does its work so well"

"I suppose I'm just one of the many happy housekeepers who are praising Sylpho-Nathol."

"It's such a help. It's so dependable. It's such a positive protection against unpleasant odors and germs."

"I used to think that soap and water and plenty of energy were all that any one needed to keep a house healthfully clean. I never stopped to think of disease germs that tuck themselves away in cracks and crannies where ordinary means won't budge them. And as for the unpleasant odors that start so easily in sinks and cellars and garbage cans of the best kept homes—I tried to put up with them as necessary evils."

"How different I feel since I've been using Sylpho-Nathol. Fred says that I use it on every square inch of the house. I know that it goes into every pail of mop-water. Sylpho-Nathol is a real germ-destructor—4½ times stronger than carbolic acid, though the druggist says it is as safe to have in the house as a cake of scouring soap. I pour it down sink drains, because it keeps away the smells such places develop so quickly. I use it in the mop water. I sprinkle it over the garbage every day, because the flies won't come near it. I use it regularly around the bathroom fixtures and as a flush for the closet bowl. Sylpho-Nathol makes a perfectly wonderful sprinkle for damp, dark cellar corners and attic nooks and other places where there is a chance for odors to start or germs to breed."

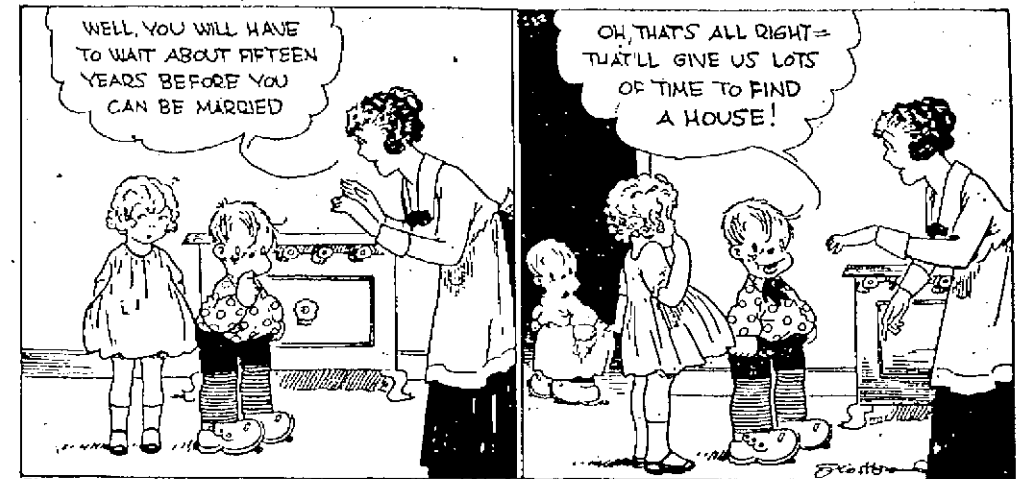

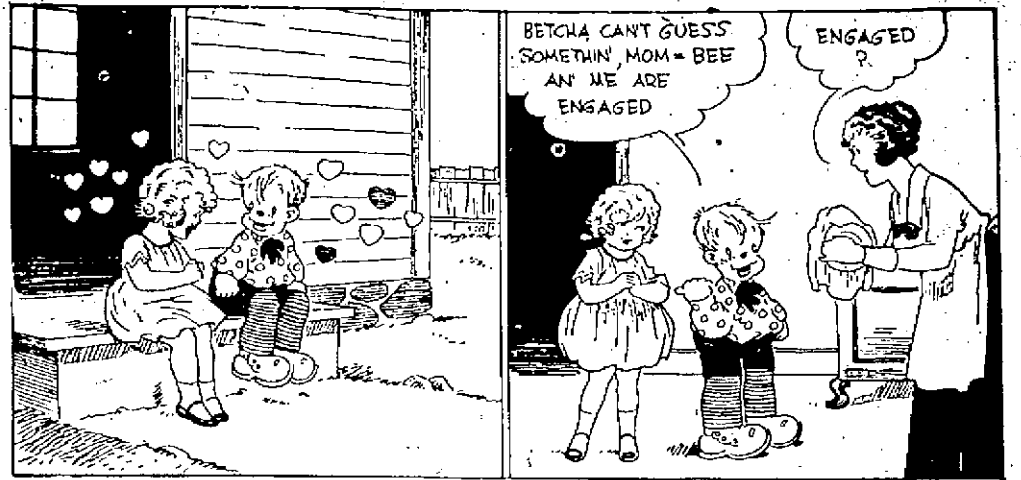

It's so easy to prepare. A teaspoonful in a quart of warm water makes a clean-smelling, pearly-gray solution that's ready for immediate use.

Sylpho-Nathol comes in four handy sizes, 15c, 35c, 65c, \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it easily. Just ask for it by the name—"Sylpho-Nathol."

Save your self hours of discomfort  
**Resinol**  
is what you want for your skin trouble—Resinol to stop the itching and burning—Resinol to heal the eruption. Scratching makes it worse, besides being embarrassing and dangerous, but the smooth gentle ingredients of RESINOL OINTMENT often overcome the trouble promptly, even if it is severe and long-established. Bathing the affected part first with RESINOL SOAP hastens the beneficial results. Resinol products at all druggists.

## GOVERNMENT OPERATES LOGGING INDUSTRY

OKMULGEE, Okla., July 5.—Arraignment of Gov. J. B. A. Robertson of Oklahoma on a charge of accepting

ing a bribe to permit a state bank to operate when he knew it to be insolvent, was set in district court here today.

Thirteen other men prominent in banking circles of Okmulgee county and indicted with the governor on March 2, after a sweeping grand jury investigation into alleged irregularities in the state banking system also were up for arraignment. Included among these were John P. Cook and John H. Rehbold, president and vice-president, respectively, of the Guaranty State bank, who are charged with having paid a bribe of \$25,000 to Governor Robertson and Fred G. Dennis, former state bank commissioner. It is charged that the executive received one-third of the amount.

#### QUESTION EXTENT OF EMERGENCY

Attorneys for the First National Bank of Boston have raised a question as to the extent of emergency involved in the \$25,000 loan order for the purpose of acquiring land in First street for an extension of Varnum park.

The order was introduced as an emergency measure and adopted at last Thursday night's meeting of the council. The Boston attorney, however, hesitates to confirm the loan to the bank on the question of whether it is of sufficient urgency to be properly classified as an emergency proposition.

It is now believed that the council will be asked to reconsider the loan order tomorrow night and order it advertised, thus eliminating the emergency clause.

#### FUNERALS

**LOUPRET**—The funeral of Lionel Loupret took place this morning from the home of his father, Ralph Loupret, 174 Hale street, and was largely attended. Three Persons Mysteriously Shot During Sham Battle at Pittsburgh, Kas.

Legion Men Who Conducted "Battle" Say They Fired Only Blanks

PITTSBURGH, Kas., July 5.—One spectator was killed and two wounded by steel jacketed bullets mysteriously fired during a sham battle by members of the American Legion as a Fourth of July celebration.

Glenn Harry, 18, is dead. Mrs. Charles Debuy and Edward O'Connor, a policeman, were wounded. All three were standing close together in the crowd, which gave rise to the theory that the shots were aimed at someone in the crowd marked for death.

Legion men declared positively that their rifles had fired only blanks.

## OUR BOARDING HOUSE

## NIGHT BEFORE BON FIRE IN NO. BILLERICA

Although the drizzling rain of Monday night was hardly the most auspicious or desirable circumstance attendant upon night before the Fourth celebration, a crowd estimated at 4000 or more people gathered on the Kohlrousch playground in North Billerica just before midnight, to witness the lighting of the huge bonfire, under the auspices of Billerica Post, American Legion.

The great crowd assembled in the playground and in automobile and on foot in the streets near by saw a streak of flame rapidly ascend the great pile, 40 feet in height, surrounding a telegraph pole and built of all sorts of material collected by the ex-soldiers. Forty gallons each of oil and tar had been distributed throughout the great heap to make for its combustibility, and the first flames rapidly spread throughout the railroad ties, tar barrels, oil barrels and other material. A great number of the spectators remained until the structure was demolished and the last spark extinguished by the teaming rain.

Although the rain made the spectators extremely uncomfortable, it removed all danger of the flames spreading to the adjacent buildings. It did not interfere with the bonfire itself, but rendered even the nearest house, some hundreds of feet away, immune from descending sparks. The light wind which prevailed drove the sparks in the opposite direction, however, and the presence of the North Billerica fire company and its apparatus was an added safeguard. This fact lent additional gratification to the legion members connected with the blaze and to the spectators in general. The whole affair, despite the weather, was a most auspicious opening feature of the day's celebration.

The women's auxiliary of the Billerica Post assisted in the work, under the guidance of President Eillian Buckley. On the Colson street side of the playground a number of booths were erected to dispense refreshments to whomsoever desired gustatory entertainment. The ladies were forced to renew their stock of eatables soon after the bonfire commenced.

The good nature and resulting good order of the large crowd made the services of the police officers superfluous, and the affair was notable in this respect. Cars carried many of those present from Lowell to their homes, while the remainder, in automobiles, remained to the finish.

Congratulations have been pouring in on the legion post from all sides on the success of their undertaking. Much labor and planning was necessary in the preparation of such a pretentious bonfire, and while contributors of material, many and varied, were also recognized for their part in the occasion, the ex-service men deserved all the credit for the splendid manner in which they ushered in the grand and glorious Fourth.

## JAPAN FOR PEACE ON LAND AND SEA

TOKIO, July 5.—(By the Associated Press)—That Japan stands for peace on land and sea and maintenance of the unbroken friendly existing between herself and America were outstanding sentiments expressed in the address made yesterday by Premier Kato at the luncheon given him in honor of Edwin Denby, secretary of the navy and visiting member of the Annapolis class of 1881, by Premier Kato. Premier Kato said:

"We are not only willing, but anxious to maintain and constantly develop the unbroken friendship that exists between our nations. It seems to me that if we in America and Japan are sincere in our purpose we must perpetuate the understanding between our countries."

"In co-operation with the leading nations of the world we ought to be able to maintain far into the future the peace that now rests upon the seas, and if we succeed in this it must follow that peace upon land will be generally preserved and steadfastly promoted."

## CLOTHING 600 YEARS OLD FOUND IN GREENLAND

COPENHAGEN, July 5.—Men's costumes of the 13th and 14th centuries have been found in Greenland. They are in an excellent state of preservation, and resemble the clothes worn by Dante in the published pictures of the Italian poet. They are not yet open to public view, but may be exhibited at some future date.

These interesting finds were made by Dr. Noerlund, a Danish scientist, while excavating in ancient burial grounds in the southwestern part of Greenland. They are the only existing specimens

in the world of garments worn by men in the 13th and 14th centuries. Being deposited in the frozen earth for about 600 years has preserved them from destruction by moth and age. The garments are now in Copenhagen and deposited in the Danish collection in the museum housed in the Prince's palace.

Dr. Noerlund has found also several old wooden crosses in the frozen earth. They are covered with inscriptions in the Gothic rune script, and are considered by scientists to be of great historic value.

REDUCE AND GAIN HEALTH BEFORE YOU GET UP

ANNE HYATT PERFORMING THE EXERCISES SHE ADVOCATES

By MARIAN HALE

There are hardly souls who bound out of bed and dash through the daily dozen without any greater incentive to action than the alarm clock.

Others there are to whom this bounding out of bed is so contrary to temperament and training as to be positively unconstitutional.

For the large majority of women who make up this second class Anne Hyatt has evolved a series of exercises that may be done in bed.

She cuts down Walter Camp's number by nine. And though you may begin sleepily, when you have completed them you have generated so much energy that you actually run to the shower bath—with a smile.

Not that the object is the ante-breakfast smile, that is a mere by-product. The real object is the perfect figure. What it did for her.

Miss Hyatt's exercises are designed to remove the flesh that accumulates

about the waist and hips, where inactivity registers. They carry conviction because she says they will do for others what they did for her.

Before she took up physical culture, Miss Hyatt weighed 157 pounds. A glance at the pictures will show you she doesn't any more.

Since the subtraction of 37 pounds she has won a prize in a national perfect figure contest, and she has conducted a health institute in a Michigan city, where she taught other women to work off their weight.

**Explicit Method**

Here is her own explanation of the exercises.

"Before you get up, give 10 minutes to your figure."

"When you awake, first hook your feet under the framework of the bed, and fold your arms beneath your head as in figure one. Then raise the body until the head reaches the position over the knees as in figure two."

"This will take off the fat that has accumulated about the waist line and will reduce the hips."

**Second Position**

"For the second exercise, go back to position one. Then, holding the body rigid, raise the legs slowly until they are at right angles with the body."

"It is also beneficial to do this exercise with each leg separately several times."

"For the third, lie flat on the stomach, then raise the body to the position shown in figure four."

"Relax after each exercise, and do not try to do too many at once. If you will do each exercise 10 times daily the first week and mount to 15 the second you will not have sore muscles or be too tired."

"The value of the exercise lies not in the energy with which they are entered upon, but the regularity with which they are followed."

GOLD

No man can know the real present conditions of Goldfield as a mining camp without becoming enthusiastic about its future greatness.

Years ago more than one hundred million dollars was taken from the mines, and every ounce of gold was from comparatively shallow depths.

Today the Deep Mines Company are 1280 feet down on a 5x11 three-compartment shaft that is to be extended 2400 feet to encounter ore the best informed geologists and mining engineers of the west claim will be found before that depth is attained.

The really big men of Nevada are behind the undertaking, and because they have their money in the project their belief in the recurrence of valuable mineral deposits is established.

A book telling about the Deep Mines Company and your opportunity to make money out of the undertaking is yours for the asking.

**Commonwealth of Massachusetts**—Middlesex ss. Probate Court.

To the heirs-at-law, next of kin, creditors, and all other persons interested in the estate of Andrew J. Boles, who died in Chelsea, in said County of Middlesex, intestate, leaving estate in said County of Middlesex to be administered, and not leaving a known widow or heir in this Commonwealth, and to the Treasurer and Receiver General of said Commonwealth.

Whereas, a petition has been presented to said Court to grant letters of administration on the estate of said deceased to Albert G. Hamel, public administrator in and for said County of Middlesex:

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the seventh day of July, A. D. 1922, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the said public administrator is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Lowell Sun, a newspaper published in Lowell, the last publication to be one day at least before said Court, and is further directed to deliver to the Treasurer and Receiver General of said Commonwealth a copy of said citation fourteen days at least before said Court.

Witness, George F. Lawton, Esquire, First Judge of said Court, this seventh day of June in the year one thousand nine hundred and twenty-two. P. M. ESTY, Register.

When Phil Frog heard Mr. Peerabout, the Man-in-the-Moon, was lost he was amazed.

"The very idea of us not knowing it!" he declared. "Why, last night the Moon looked so nice and round and shiny. Fanny and I and the children all got out and sang a song of thankfulness. We were sure we saw Mr. Peerabout then."

"No," she said. "You didn't see Mr. Peerabout. Old Comet-Legs, the fairy who is jealous of him, pushed him off the Moon. The Weatherman is running the Moon until Mr. Peerabout is found."

"Well, I declare!" croaked Phil. "I'll have to help, that's sure, for honestly I don't know what we'd do without a Moon."

"When there's a nice Moon we're not afraid of losing our lives. We can see when Oscar Owl is looking for us, and Marty Mink snoops along the bank on the lookout for a nice, fat pollywog."

Just then Polly Pollywog, who'd been listening, spoke up.

"What does the Moon-Man look like?" she asked. "Anything like frogs or pollywogs?"

"No," explained Nick. "He looks like us. He has a head and arms and legs and feet."

"But Polly was too excited to listen. 'Oh, I saw something,' she cried out. 'I know where Mr. Peerabout is. I saw him hiding in the tall grass near the bank. He's got arms and legs and a head and he's all ragged, too. I'll take you there.'"

"So off they all started. 'There he is,' cried Polly. 'Right there.'"

"And what do you think? Nancy picked up Kitty Brown's rag doll. 'No, Polly,' said she kindly. 'This isn't the Moon-Man. He's lost yet. But you can keep on looking. I'm afraid when he fell he got his head bumped and lost his memory.'"

**AMUSEMENT NOTES**  
HERMIONIA SQUARE THEATRE  
Final performances will be given this evening at the Merrimack square theatre of "Our Landing Citizen," starring Thomas McLean, and "The Woman Who Walked Alone," with Dorothy Dalton in the leading role. Tomorrow there will be an entire change of program.

Features for Thursday, Friday and Saturday will be "Polly or the Folies," a lively, laugh-producing comedy with Corinne Talmadge in the leading role, and "Love's Masquerade," starring Conway Tearle.

A score of Ziegfeld Follies girls add zest and pep to "Polly or the Folies." Constance Talmadge's latest First National attraction, The picture depicts the story of a country girl who breaks into the famous beauty chorus and shows the training of the chorus for the annual review and the performance on the opening night.

In order to preserve the realism of the story Miss Talmadge decided to have it done in the proper atmosphere and naturally engaged the members of the Ziegfeld beauty chorus, then playing on Broadway, to fill their own parts in the picture. The result has been a bery of beauty and a hurricane of action. The dance and burlesque numbers are said to be the best that have ever been seen on the screen.

The dancing of Miss Talmadge was equally surprising to the chorus girls who had seen the star on the screen. Had known of her ability to do good comedy and put on excellent screen mimicry but had never known of her terrific screen talent.

The program for the last half of the week, starting with matinee on Thursday will have Will Rogers in "Doubling for Rome," and Herbert Ross in "The Man Under Cover." The former is a comedy drama that ranks with the best that the sober-faced comedian has given us, while the latter is a mystery story of exceptional interest. Patrons are again reminded of the fact that for service and satisfying accommodations, the Strand leads, it's always cool, comfortable and healthful at this theatre.

# HEADS CRIMINAL BUREAU SOCIAL SERVICE LEAGUE

Capt. Petrie Promoted by Chief Atkinson—Duncan to Take Night Desk

Following out plans outlined shortly after his promotion to the superintendent of the police department, Thomas R. Atkinson yesterday announced the transfer of Capt. David Petrie from the night desk to the head of the criminal investigation department, the promotion of Lieut. Alexander Duncan to the rank of captain and his subsequent appointment to the position held by Capt. Petrie. While the orders are effective immediately, it will be a few days before they are actually carried out, as Capt. Petrie will assist Capt. Duncan in his new duties for a night or two and then take a few days vacation to celebrate the 25th anniversary of his marriage.

This important transfer is the first ordered by Chief Atkinson since he was elevated from the position as head of the criminal department to chief of the force. It is also understood that no other changes will be made involving the personnel of the higher officials.

Capt. Petrie, although he desired the change, will leave the night desk with certain regrets. His assignment of police officers to the various details of the city has brought him in close touch with all of the men of the department.

Capt. Duncan appears to be well qualified for the position of night captain. Before going to city hall to work in the office of inspector of claims he several times held down the position to which he is now permanently assigned. His long experience on street work in connection with the night shift makes him familiar with all routes of the city.

Charles H. Stoway, representative in the 14th district, has taken out papers as a candidate for re-election on the democratic ticket.

Sister Concepcion of Lockport, New York, formerly Miss Katherine V. Hickey of this city, is visiting relatives here. She is stopping at St. Mary's convent on Moore street.

Mr. and Mrs. Frank Donnelly of Portsmouth, N. H., spent the holidays as the guest of Mrs. Mary Donnelly of 125 Summer street.

Mr. Walter Davis is enjoying a rest after a very successful season in vaudeville. Mr. Davis expects to open a new act in the early fall in a new musical comedy.

Judge Thomas J. Knight is taking a short vacation from his duties as presiding justice of the district court. Associate Justice John J. Pickman has occupied the bench for the past two sessions.

John E. Burns, a clerk in the money order department of the local post-office, is serving as temporary superintendent of the Middle street sub-station. Postmaster DeLisle intimated today that the transfer would not be permanent, and that Mr. Burns may be back at his former desk in the course of the next few days.

On Thursday, July 6, Miss Maude Holt Benton, a granddaughter of Benjamin Holt of this city, and at present a member of the teaching staff of Danvers high school, will sail for England on the Laconia from New York. During her stay abroad she will visit relatives and friends in Leeds, Glasgow, Bradford and London, England, and will also visit Paris. She will return in September.

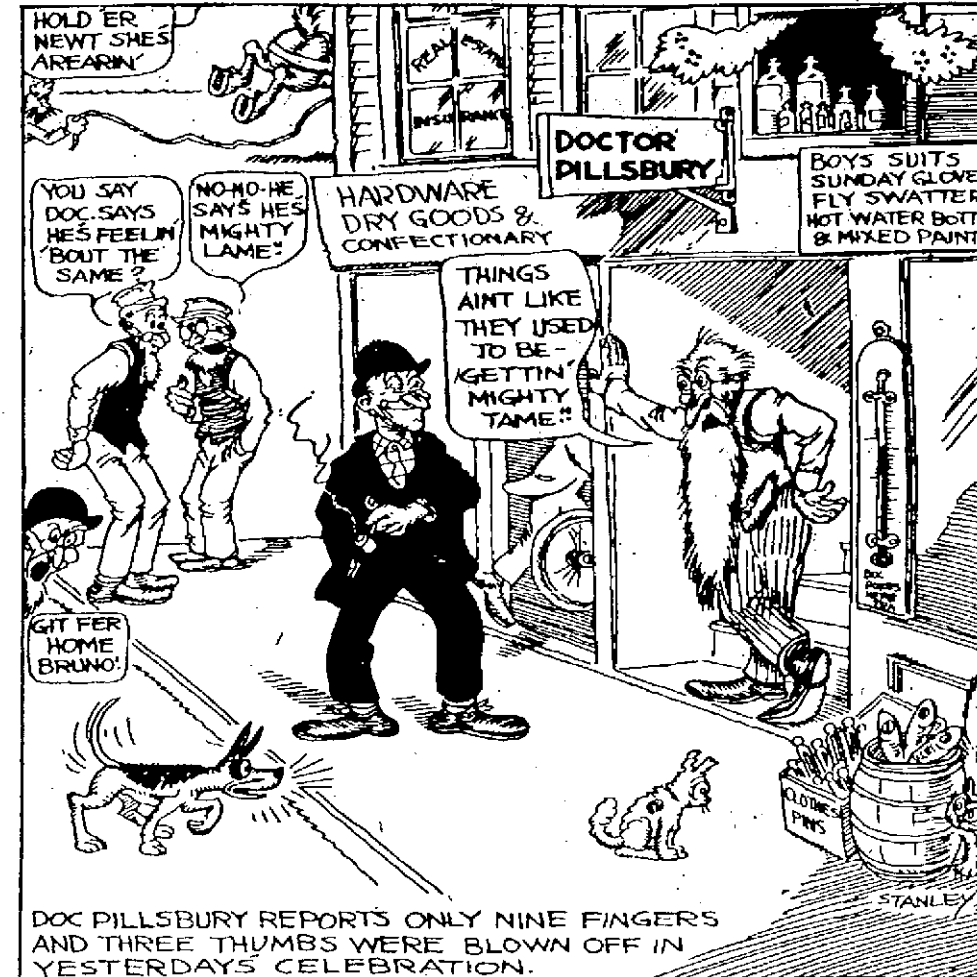

**MATRIMONIAL**  
The marriage of Mr. Walter George Silcox and Miss Carol MacMurray, both of this city, took place June 21 at the Union Methodist church, Washington, D. C., the officiating clergyman being Rev. James McLean, pastor of the church. Miss Dorothy Trimble was maid of honor, while the best man was Mr. Arthur Silcox of this city. A brother-in-law, Mr. J. J. Roberts, acted as ring bearer. The couple will make their home at 19 Roberts street, this city.

**Schenck-Fellon**  
At the parsonage of the Gorham Street P. M. church, yesterday afternoon, Mr. Andrew Chas. Schenck, Jr., and Miss Florence M. Fallon were united in marriage by Rev. W. Matthews. ## POSTMASTER BACK FROM VACATION

Postmaster Xavier A. DeLisle returned from a pleasant holiday trip to Washington today. During his brief stay in the capital, Mr. DeLisle busied himself renewing old acquaintances and spent some time in the company of Congressman John Jacob Rogers whom he served for a number of years in the capacity of private secretary. He also met the venerable co-speaker of the house, "Uncle Joe" Cannon, who has announced his retirement from politics at the close of the present session. The trip combined business with pleasure as Mr. DeLisle paid an official visit to the postmaster-general for advice and information on important postal matters.

church at 9:45 by Rev. Eugene Vincent. The choir was under the direction of Oliver J. David. At the offertory "Tantum Ergo" was sung by Mrs. Amanda Davis and Julia Morrisette sang "In the Church" and "The Lord's Prayer" assisted at the solos of the mass. Miss Ida Mongrain was the organist. The bearers were Joan B. Scarr, Leanne M. Allen, Joseph Massie, Vincent Marotta, Chas. Rottas and Israel Marion. Burial was in the family lot in St. Joseph's cemetery. Arrangements were made by Funeral Director Joseph Albert.

**HARVEY**—The burial of Charles Hollis Harvey, who died in Worcester, July 2, at the age of 89 years, 10 months and 14 days, took place yesterday morning at 10 o'clock at St. Patrick's church. The funeral was a large one and was largely attended by sorrowing relatives and friends. The choir was directed by Miss Frances Tighe and Daniel S. O'Brien. Mr. M. J. Johnson presided at the organ. There was a profusion of beautiful floral and generous spiritual offerings. The bearers were: James McNabb, Edward Ryan, James Greag, Harry West, Daniel Shaw and Robert Welsh. Burial took place in St. Patrick's cemetery, where the committal prayers were read by Right Rev. Monaghan William Ryan. The funeral arrangements were in charge of Undertakers M. H. McDonough Sons.

**MCARTHY**—The funeral of Mrs. Hannah McCarthy, who died at her late home, 23 Rock street, and was largely attended by sorrowing relatives and friends. ## HOW DOLLARS VANISHED

This is the Story of a Man Who Displayed His "Roll" in a Crowd

Three hundred dollars isn't much in these days of staggering figures. It isn't much when you say it quick, as the saying goes, but still it is a powerful lot to spend on a carnival as one local man reports as having done. The money wasn't actually spent for chances on dolls, blankets and peeps at Goo-Goo, the wildman from the wildest jungles of Borneo and other amusements, such as dotted the South common in the past two days, but was reported to have been lifted from a "gent's" pocket by some light-fingered Lena, Laura or Lizzie.

The police heard the sad story, spilled a few official tears and catalogued the incident as one of those carnival happenings. According to the story, the man's roll was so big that no kangaroo in the world could have jumped over it; even Pat McCarthy who was reported "to have left 41 feet in the old country" would have had his troubles clearing the bundle of long green, jack, gelt, mazzina or what ever you will have it. The tale goes on that the man pulled out the roll and shortly was brushed in a crowd by two women.

A few minutes later he desired to try his luck and reached for the roll. The roll wasn't there. The only thing that held the victim up was the crowd. His knees sagged but he didn't fall; the crush that he met was great. With realization that his roll was gone the man wormed his way out into the open where the fresh air revived him, physically. The police were notified and the story told. They are working on the case, but haven't the slightest clue to the "ladies" who "brushed" the "gent."

## GOV. COX NAMES TEXTILE SCHOOL TRUSTEES

(Special to The Sun)  
BOSTON, July 5.—Governor Channing Cox today appointed Hugh J. Molloy, superintendent of Lowell public schools, and William A. Mitchell, agent of the Massachusetts Cotton mills, trustees of the Lowell Textile school. Other trustees appointed are Thomas T. Clark of Billerica; T. Ellis Ramsdell of Great Barrington, and William R. Moorhouse of Brookline.

## FUNERAL NOTICES

**SWANSTROM**—Died in this city, July 4, at her home, 26 Greenwood st., Mrs. Regina Swanstrom, aged 51 years, 2 months and 25 days. Funeral services will be held at 25 Greenwood street on Friday afternoon at 2:30 o'clock. Friends are respectfully invited. Undertaker William H. Saunders in charge.

**MARSHALL**—The funeral of George W. Marshall will take place from his late home, 483 Parker at Thursday morning at 8:15 o'clock. High mass of requiem will be sung at St. Margaret's church at 9 o'clock. Interment will be in St. Joseph's cemetery. Undertaker Peter H. Savage in charge of funeral arrangements.

**SCHOOL JANITOR'S OUTING**  
On Wednesday, July 12, three open cars will leave Merrimack Square at 1 p. m. for Lakeview, bearing the members of the Lowell Public School Janitors' association, who will host their annual outing on that day. The affair will be in charge of Thomas Keegan of the Butler school. On the following day, the employees of the Caggon Co. will journey to Concord street for a day of sport. Arrangements are in charge of James Saunders. A special car will leave this city at 8:15 and return late in the evening.

## THE CHAMBER OF COMMERCE BULLETIN

The Lowell Chamber of Commerce Bulletin sometimes contains stories of the chamber's activities for civic welfare which have escaped notice until the number is published. This month's Bulletin is no exception, and tells a very pleasing story of an itinerant vendor who was compelled to file a bond and pay a fee.

This vendor came here from a neighboring city a short time ago, equipped with a large stock of women's household garments, similar to that carried in stock by local merchants. He established himself in Merrimack street. Learning that he intended to remain to visit the store and assess the chamber at once took action in the direction of having the transient vendor's law, which provides for the filing of a bond of \$500 and a fee to the state of \$25, enforced. This action was taken on notification of Warren P. Rorson, holder of the license, and measures to enforce the law were taken. The vendor's bond and fee regulation.

In addition to the state's activities in the matter, the usual application to the city council had to be submitted, and the latter authorized the assessors to visit the store and assess the vendor. A city tax was then placed upon the stock and the vendor considered licensed.

The whole case hinges on an amendment to the transient vendor laws under the acts of 1921, which states that unless a vendor has been in business ten months each year he is a transient vendor.

## DEATHS

**HARVEY**—Charles Hollis Harvey died July 2 at Worcester, at the age of 89 years. The body will be sent to Lowell where burial will take place in the Westlawn cemetery.

**MUTTERLY**—Mrs. Annie L. Ducharme Buttery, aged 54 years, died Monday at the home of her daughter, Mrs. Thomas H. Welsh, Trotting Park, where she was residing. She was born in Lowell, Mass., and was the daughter of Mrs. Dolle Julia Moore, William T. Ducharme and Mrs. Mabel L. Welsh, and seven grandchildren.

**LATENDRESS**—Rita Latendress, infant daughter of Alfred and Rose Dellina (Champane) Latendress, died last night at the home of her parents, 130 Cheever street, at the age of 1 year, 6 months and 23 days.

**WATERHOUSE**—Agnes Harriet Waterhouse, infant daughter of George H. and Jeanette R. (Martin) Waterhouse, died yesterday at the home of her parents, 202 Fletcher street, at the age of 2 months.

**WIDJIGER**—Marguerite Marie, infant daughter of Edward and Marie Jeanne Widjiger, died yesterday morning at the age of 21 days.

**PROTEAU**—Elmire (Rousseau) Proteau died yesterday at the home of her daughter, Mrs. Alphonse Hamel, 1 Hamcock ave., at the age of 66 years. She leaves six daughters, Mrs. Alphonse Hamel, Mrs. Alfred Arcand, Mrs. Chas. Tremblay of Lowell, Mrs. Mathilde Boudin and Mrs. Rebecca Marcotte of Canada; one son, Mr. Joseph Proteau of Norwich, Conn.

**MARSHALL**—George W. Marshall, a well known resident of this city, died Monday night at his home, 483 Parker street. He was a member of the Lowell police force for over 25 years, following the retirement of 12 years ago. He was married to a woman named Mary J., a daughter, Ella, and a son, George. He was a member of the Police Relief association.

**FIRE ALARMS**  
Clothing store at 45 Clark's court, off Lawrence street, caused the fire department to respond to a telephone alarm at 11:24 this morning. The blaze was extinguished immediately, with no damage other than to the clothing. At 1:08 p. m. a still alarm was sent to the station at Mill street court where an oil stove was afire. Prompt action on the part of the firemen prevented a spread of the flames.

**AND STILL ANOTHER**  
It has been reported to the board of health that Noble Eubanks of 135 Princeton street, was bitten on the right hand by a dog owned by P. W. Shanahan, of 180 Princeton street. The case was reported by Dr. Alden and turned over to Dr. Sherman for investigation.

# HE CAN'T SPEAK GREEK DEDICATION OF SQUARES

But Outside of That Martin Maher is an Excellent Police Officer

Is Lieut. Martin Maher able to speak Greek?  
From no better authority than the lieutenant himself comes the admission that "Kappa Psi Beta" means no more to him than "Oxy-ohy-wow-wow," the latter being the latest bit of Esquimaux slang. Notwithstanding, a police officer from one of the neglected towns thought, at least, still thinks, Lieut. Maher is able to manipulate Greek.

This morning the officer in question, all blown out as the result of a hurried trip from the guard room, panted his way into the criminal investigation department. Spotting Lieut. Maher, he exclaimed, "What's that yare big fellow that talks this Greek language?"

"Working for the railroad," came the reply.  
The officer then turned to Lieut. Maher and said, "Well, I jest dug a feller in and I can't quite get his language. He talks Greek, but I'm going to bring him in and you talk with him."

Lieut. Maher—"I can't talk Greek."  
The visiting officer—"Maybe you can't, but perhaps you can get him better'n me."

Within a few seconds the burly officer returned towing a man slightly taller than little Jeff. Creeping up to within whispering distance of the lieutenant, the officer mumbled, "I think he's got a gun. Better search him."

"Search him yourself, you brought him in here," this from the lieutenant.  
The officer, "No, you do it."  
Lieut. Maher walked up to the victim, asked him if he had a gun, frisking him meanwhile and finding the only thing he's got in his pockets is a tobacco pouch.

With this the officer turned and led his man to another room and said that he would wait for "that feller" who talked the Greek tongue.

## JUNIOR TWILIGHT LEAGUE

The Junior Twilight League schedule suffered as the result of the rain of the past week. But for this the schedule would have been completed tomorrow. All postponed games will play on July 8, the Pawtucket Blues will play the Tigers and the North End will play the Orioles. Two games were on the card for this evening, but wet grounds caused a postponement.

## Harding Calls on "The Boys" at Marion

MARION, Ohio, July 5.—(By the Associated Press)—President Harding was just a plain citizen today in his own home town. Relieved from the burdens of his high office, the president spent the day with members of his family, some of his intimate friends and "the boys" at the Marion Star office. His only scheduled appearance in public today was to review an historical parade, staged in Marion's centennial celebration. Disillusioned by the high honors that have come to him, Mr. Harding told his audience at the fair grounds yesterday that he would welcome the day when he could come back to stay permanently. "Some of you may think it's a fine thing to be president," he added. "Keep on thinking it—you'll find the situation very different when you wake up."

## FOURTH OF JULY CELEBRATION

Merry-Makers Display Com-

Rain Upset Lowell's Fourth  
of July Program, But  
Everybody Was Happy

Lowell tried hard yesterday to con-  
duct itself just as if a warm and  
friendly sun was shining upon its  
Fourth of July celebration, but it was  
not a complete success and by the  
time evening rolled around, even the  
spirits of the merry-makers showed  
the effects of the dampness and thou-  
sands seemed perfectly satisfied to  
turn homeward and let the rain have  
full possession.

All day long it was an uneven bat-  
tle with the elements holding the whip  
hand. When it was not raining, low  
hanging clouds carried a constant and  
menacing threat and although a huge  
crowd went to the South common in  
the early evening for the scheduled  
display of fireworks, it was with a feel-  
ing of apprehension and no one seemed  
surprised when it was announced that  
the display would be postponed until  
tonight, weather permitting.

So today, Lowell is experiencing a

## FOR COMPLETE MOTORIZATION OF LOWELL FIRE DEPARTMENT

Loan of \$50,000 to Be Presented to City  
Council Tomorrow Night by Committee  
on Public Safety--All Horses Would Be  
Eliminated by Purchase of Two Tractors,  
Two Triple Combinations and Extra Piece  
of Order

An order to borrow \$50,000 for the  
complete motorization of the Lowell  
fire department, that would embrace the  
purchase of two tractors, two triple  
combination pumping engines, two cars  
for deputy chiefs and an extra piece to  
be used so that an old piece now in  
the service may be held as a utility  
machine, will be introduced in the city  
council tomorrow night by Councilor  
Fred A. Sadler, chairman of the com-  
mittee on public safety.

At a meeting of the committee this  
noon, with Councilors Sadler, Quennan,  
Morriarty, Adams, McMahon and Mc-  
Namen present, it was unanimously  
voted that an order in this amount be  
presented and that the committee as a  
whole should vigorously urge its pas-  
sage.

Chief Edward F. Saunders of the de-  
partment also was present and out-  
lined the need of more apparatus,  
particularly the advisability of com-  
plete motorization. If two tractors  
should be purchased, one would be at-  
tached to the Babcock aerial ladder  
truck at the Central station and the  
other to the aerial truck at the West  
Centralville house. Only recently it  
has been shown that horses are unable  
to drag this piece more than half way  
up Christian Hill.

Two triple combinations would be  
so placed as to eliminate other horse-  
drawn apparatus, leaving the present  
steam pumping engines in reserve in  
case of a serious conflagration.

The recent trip to Lawrence by  
members of the public safety com-  
mittee, on the occasion of the fire  
chefs' convention and the attending  
demonstration of the new apparatus  
purchased this year in that city, con-  
vinced the committee that Lowell's need  
of a completely motorized department  
is a matter of rank with Lawrence and  
at that time a loan order in an amount  
sufficient to allow this to be done  
was suggested.

Union Leaders Declare Main-

Small Disorders at Several

in Illinois

CHICAGO, July 5.—(By the Asso-  
ciated Press) Striking railway shop-  
men, who walked out in answer to the  
nation-wide call from the headquarters  
of the shop crafts unions here last  
Saturday, were reported drifting back  
to work today in uncertain numbers.  
Today was considered the turning  
point of the strike of the 35,000 to  
40,000 workers. Although responding  
generally to the call last Saturday,  
railroad officials insisted that many  
defections were due to the men tak-  
ing holiday over the Fourth of July.

Local union reports to the office of  
an agent with knife wounds in his  
abdomen. A report of his condi-  
tion to the police today contained  
the information that he is still in a  
serious condition and, although hope  
is held out for his recovery, it will be  
several days before he passes the dan-  
ger zone. The case was continued to  
July 15.

This stabbing was the most serious  
of three reported over the holiday.  
William Smith admitted an attack  
with a knife upon Frank Bouchard  
and George Rotekas pleaded not guilty to  
an assault with a knife upon Francis  
Trainer. He is already under bail.  
The case was continued to July 12.

Moonside Purchase Involved

Neither Bouchard nor Trainer are  
reported as seriously injured. Bouchard  
was taken to St. John's hospital  
suffering from stab wounds below the  
heart and in the back. According to  
the story told by the police, Smith  
had been given money in South Lowell  
to purchase liquor for Bouchard and  
a party of friends.

Smith claims to have left with the  
money and become interested in a crap  
game which deterred him from doing  
his errand as promptly as he intended.  
He avers that when he returned to the  
Bouchard party an attempt was made  
to "beat him up" which he resisted,  
causing him to draw the knife. Bouchard  
was said to have been stabbed in the  
mixup which followed. Smith was  
arrested a short while later, while  
Bouchard was taken to the hospital and  
treated for his wounds.

## 10 Buildings Are in Flames

Continued  
In their backfield street stronghold was resumed at 1 o'clock this afternoon after a few hours' lull.

**Hamman Hotel in Flames**  
The Hamman hotel, which has been one of the principal points of the defense was ablaze shortly after midday, and the flames were spreading to adjoining buildings on the south. Shortly after the fire was observed in the hotel hung out, but when troops and firemen reached the building they were fired at, and the supposed flag was withdrawn.

The National army forces then trained an 18-pounder on the Hamman and on the general post office west door, on the north side where the main force of irregulars was believed to be concentrated.

The postoffice is more solidly constructed than the other buildings of

the block and it is believed that it is there the republicans soon will wage their final fight.

**Nationals Take Oresham Hotel**  
The Free State forces are reported in full possession of the Oresham hotel, which is separated from the postoffice by the Crown and Granville hotels. From the upper stories of the Granville, the defenders were continuing to maintain a sharp rifle fire. Dense volumes of smoke are pouring from the blazing buildings and occasional explosions were heard.

At mid-afternoon, the fire was reported to have spread to the postoffice. Crowds Watch Battle  
A vast crowd on the O'Connell bridge, the southern terminus of Sackville street, watched the tragic spectacle being enacted a row hundred yards away, heedless of the peril of flying bullets. Red Cross workers were carrying on their work fearlessly.

It is not known whether Farnon de

Valera and the other republican leaders including Harry Boland and Countess Markievicz, are with the garrison. It is believed a considerable number of the defenders escaped, and it is considered probable that they have gone to join the bands organizing in the Dublin hills, supposedly under the leadership of Erskine Childers. A force of national army men already has been dispatched to count this move.

**Big Fight Imminent**  
Another big fight is believed to be imminent in County Donegal. A large number of irregulars is concentrated at Glenveagh castle, which is surrounded by forests and well situated for defensive purposes. It is estimated that 500 republicans are there. They have installed the wireless outfit captured from the British station on the Donegal coast and have commandeered and fortified many of the farmhouses in the vicinity. All the

approaches are reported to have been mined.

**Priests Intervene**  
Free State troops are gathering in force for an attack on the castle with artillery and possibly bombing airplanes. Catholic priests have intervened in an effort to arrange terms, but Free State leaders have stated they will accept nothing short of unconditional surrender.

The battered exterior of the Hamman hotel and the Hibernian Bible society's premises adjoining, show grim evidence of the 18-pounder field pieces and armored cars of the provisional government forces.

**Nationals in Control**  
The southern part of the city is completely controlled by the provisional government and all approaches to the main streets are held by national troops. Raids for arms are being carried out successfully in many areas. Troops operating from Curraugh Inter-

cepted a party of irregulars at Ballinacorney and captured 21 with arms and ammunition, and three motor vans. People living in Marlborough street, which was the irregulars' line of defense behind Sackville st. have been able to emerge from their terrifying seclusion. Some of them had for days been experiencing difficulty in obtaining food. Red Cross workers removed them to other parts of the city where they are being fed and cared for.

Persons have been observed signaling the prisoners in Mountjoy, where Rory O'Connor and his defeated Four Courts garrison are confined. Information also has been sought by various parties as to the disposition of the guards at the prison and the latter have been instructed to fire on suspected spies.

**60 Killed, 300 Wounded**  
Casualties during the week's fighting in Dublin are placed at approximately 60 killed and 300 wounded. Considerable activity by both sides in the area outside Dublin was evidenced by reports reaching here today. Kingstown proceeded in motor lorries

under command of Brig. Gen. MacNeill for the Dublin hills, where irregulars are reported. In the mountains between Enniskerry and Brittas, County Wicklow, several motor vehicles that have been commandeered by irregulars have been discovered abandoned. Armed men yesterday raided small towns in Wicklow.

**Silgo Isolated**  
Reports from Silgo say that town is isolated from the north. No trains are reaching Enniskillen, while bridges on the road from Enniskillen to Cooloney, County Silgo, have been blown up. The republicans have installed at Glenveagh castle, County Donegal, the wireless seized recently at Bunbeg naval station in that county. Houses in the neighborhood of the castle are being commandeered and fortified.

It is believed that when the attack by the national army is launched upon the castle the assailants will have the support of artillery, armored cars and airplanes.

Countess in Uniform  
DUBLIN, July 5.—Many men driven

from occupied posts have managed to escape capture by the nationals in the actual strength of the garrison which is surrounded in Sackville place is a matter for surmise, says the Independent.

When the Gresham hotel block is important captures may be made. A newspaper declares that Countess Markievicz, in uniform, entered the Gresham last night.

**Insurgents Claim Success**  
CORK, July 5.—(By the Associated Press) A statement from republican headquarters at Malin reports considerable military activity in southern Dublin county, where the republicans have evacuated and burned all the barracks not deemed fit for defense, concentrating on the Wicklow border.

The republican communiques declare that the English are launching over huge quantities of armored transports, arm and equipment to the Free State. The southern republican division is declared to hold all the barracks at

these shorter waves for the protection of shipping during heavy weather. He points to the successful use of this method up to a distance of 10 miles from lighthouses which are now in operation on the coast of Great Britain.

As much as one horsepower of electrical energy has been used on but slightly longer waves and reliable telephone conversations have been held over distances of 100 miles. Reflectors were used at both transmitter and receiver.

Many amateurs may utilize these wave lengths in their experimental work. It is expected that endless new applications of radio will be forthcoming as a result of their experiments.

### PAYMENT OF MEXICO'S FOREIGN DEBT

MEXICO CITY, July 5 (by the Associated Press).—Approval of the agreement reached between Finance Minister De La Huerta and the International bankers in New York concerning payment of Mexico's foreign debt is being withheld by President Obregon until Huerta returns from New York and congress gives its approval, according to an official statement.

### NEW REGULATIONS BY U. S. TREASURY

WASHINGTON, July 5.—New regulations covering stamp taxes on documents in conformity with the revenue act of 1921, were issued today by the treasury. The regulations cover all forms of documentary stamp taxes except on certificates of stock and sales of products for future delivery for which rules are to be promulgated shortly.

### DRAW FOR VACATIONS

Members of the criminal investigation department have drawn for vacations. The first slip drawn was in favor of Sergt. Philip Dwyer, who left on his vacation today. The other prizes will be divided as follows: Sergt. Kennedy July 16; Sergt. McGonigley, Aug. 2; Lieut. Miller, Aug. 16; Inspector Walsh, Aug. 30. Each of the men are entitled to two weeks' pay.

**Simple Receiver**  
The receiver used a like antenna which had associated with it an extremely small tuned detector circuit of a crystal detector and a few turns of wire on a half-inch tube. To this receiver was attached a loud-speaking amplifier so that 1500 auditors could hear the signals.  
Wave lengths as short as these may be reflected the same as light waves. The transmitter was housed within a reflector. When this was turned even slightly away from the direction of the transmitter, no signals were recorded at the receiver.  
Marconi says that when these waves strike metal objects they are reflected. Even in the heaviest fog, steel vessels many miles away may be located and their course determined by the radio beams reflected from them.

## LARGE AND VARIED TENNIS PROGRAM

WIMBLEDON, July 5. (By the Associated Press).—A number of matches carried over from yesterday because of rain and several others down for a decision made today a program in the grass court tennis championships both large and varied.

Chief interest in the matches in the amphitheatre centered in the singles contest between Gerald Patterson, the whirlwind Australian, and Cecil Campbell, the latter described as "England's last hope."

The meeting between Mrs. Molla Bursstedt Mallory, the American woman champion, and Mrs. H. Evington was counted upon to supply interest, largely from its bearing upon Mrs. Mallory's progress toward possible meeting with Miss Suzanne Lenglen. A good gallery also was assured for the mixed doubles match with Pat O'Hara Wood and Miss Lenglen on the one side, and G. Shorwall and Miss D. Kemmis Betty on the other.

Mrs. William Howard Taft was to be a Wimbledon spectator today, and the authorities invited her to use the royal entrance to the amphitheatre.

## RUSSIAN BUDGET "A FANTASY OF FIGURES"

THE HAGUE, July 5 (by the Associated Press).—"A fantasy of figures" is the characterization applied today by European experts here to the Russian budget, submitted by the soviet representatives.

"Still they are intensely interesting," said M. Alphand, the French expert. "They clearly demonstrate the Bolsheviks are gradually abandoning communism. They uphold the state trade monopoly but are ready to grant individual trade licenses."

## G. O. P. MAY MEET AT SAN FRANCISCO

SAN FRANCISCO, July 5.—Strong sentiment has been created among the chiefs of the republican party in favor of San Francisco as the scene of the 1924 national convention, according to word received here from Robert L. Webb, executive secretary of the San Francisco convention league, who is in the east.

Reports that the democratic convention delegates who nominated James M. Cox here in 1920, had been entertained very satisfactorily, were said to be influencing the republicans.

## NEW HEAT RECORD, 124 AT REDDING

REDDING, Cal., July 5.—This town, in the upper Sacramento valley, hung up a new Independence day heat record, a check on the high mark of 124 degrees reached by the mercury yesterday shows. A few prostrations were reported.

WASHINGTON PARK  
In addition to the band concert at Washington park yesterday a fine ball game was staged between the Washington park team and a team from the North End composite teams. The contest ended in favor of the Washington team, the score being 6 to 4.

## G. O. P. Leaders Prepared to Present Petition Invoking Closure Rule

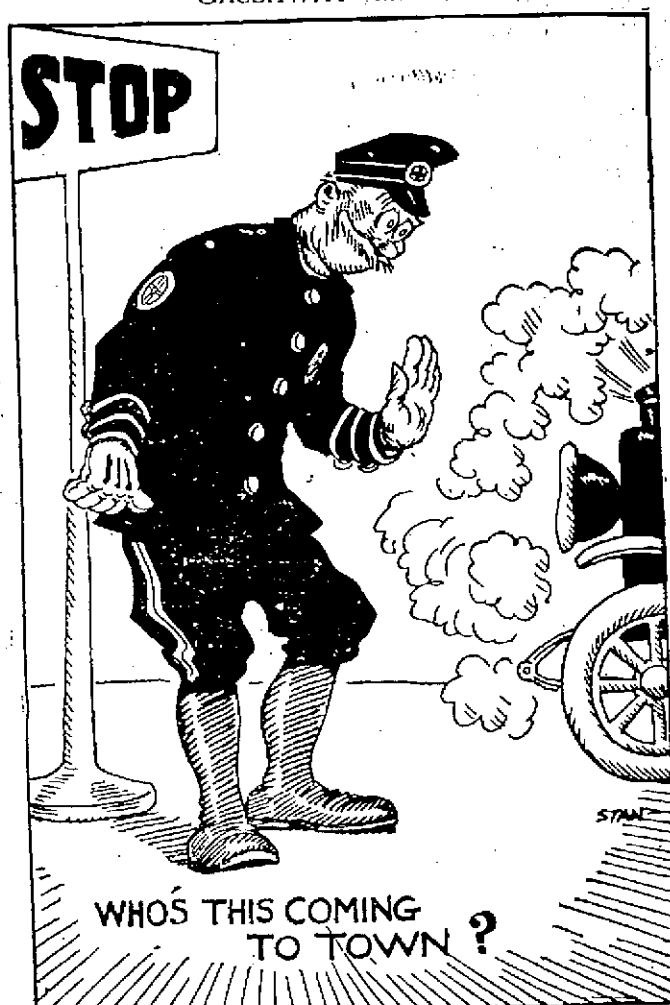

WASHINGTON, July 5.—Republican leaders on the reconvening of the senate today were prepared to present their petition for the invoking of the existing closure rule with a view to curbing debate on the tariff bill. Although between 55 and 60 republicans have signed the petition, majority leaders said it was improbable that the necessary two-thirds vote for closure could be obtained when the motion is voted on, probably this week. Under the rules the motion must lie over a day before a vote is taken. While several democrats were said to favor closure, the minority as a whole were expected to line up against it.

Although expecting defeat of the closure, republican leaders said it would at least demonstrate a desire on the part of the majority to bring the tariff measure to an early vote. If the move failed and substantial progress were not made on the bill, they were prepared, they said, to lay it aside and make a fight for adoption of the proposed new closure rule, recommended recently by two republican conferences to invoke closure by a majority instead of a two-thirds vote.

## DISORDER IN LITTAU, SAXONY

BERLIN, July 5.—A disturbance is reported at Littau, Saxony, in connection with yesterday's nation-wide demonstration staged by the republicans. The demonstrators seized 100 rifles and a store of ammunition from a shooting range and marched to the court house where they demanded the release of the prisoners. They also called upon a local newspaper to withdraw an article objectionable to them. The results have not been learned here.

## REFUSES \$25,000 OFFER

Lover of Horses Purchases

Painting for \$450—Work of Famous Dutch Master

NEW YORK, July 5.—Christopher J. Fitzgerald has loved horses all his life and he has spent his life looking at them either as a follower of the king of sports or as an official of the jockey club. His affection even goes so far as that he wants pictures of horses around him, so not long ago, when he saw in an auction room a painting that contained studies of several horses, he entered and bid \$450 in order to get it.

Fitzgerald took his painting home and as it was grimy and old, had it cleaned. Then it was discovered that he had purchased a work of Isaac Van Ostadi, a Dutch master of the 17th century. The painting had been in the Baring and Dunmore collections in London.

An offer of \$25,000 has been made for the painting, but Fitzgerald says it is not for sale because he likes the horses the old master spread on his canvas.

## THREE KILLED BY WILDCAT ENGINE

## An Easy Way For

Thin People to Put on Flesh and Gain Weight

Strong, Straightforward Advice to Thin, Underdeveloped Men and Women

If you are thin, scrawny and underdeveloped, if your face is peaked and your cheeks and neck exhibit unsightly hollows, if it is almost certain that your nervous system is at the bottom of the trouble, you can eat three, Evans' Triple Phosphates daily, producing results in a day, but as long as your stomach is so inefficient, simply eating more food will do you little if any benefit.

In order to assimilate properly the nourishing food you eat and convert it into healthy tissue and fat the nerves that control the process of digestion and assimilation must be in first-class shape and until that is done you might just as well try to put on flesh. Your system is starving for something that will turn the food you eat into healthy stay-there flesh. It can only be done in one way—by correcting faulty nervous digestion.

Thin, scrawny people, however, with impoverished blood and half starved nerves are failing with delight a quick and certain maker of solid flesh called EVANS' TRIPLE PHOSPHATES that is unequalled for repairing faulty digestion and correcting nervous digestive troubles. In fact, the makers of Evans' Triple Phosphates guarantee that one month's treatment will increase your weight by several pounds and within ten days make you feel like a new man, full of ambition, vigor and a desire to accomplish things. Fred Howard and leading druggists everywhere have agreed to supply Evans' Triple Phosphates and guarantee it to do just what is claimed for it or money refunded.

Caution: While Evans' Triple Phosphates accomplish wonders in nervous digestive troubles and as a general nerve tonic, it should not be taken by anyone who has a few additional pounds of solid stay-there flesh.—ADV.

## NO CLASS RULE, SAYS HARDING

President Says Government Will Not Allow Group Domination

Discusses International Relations and Industrial Situation in Holiday Address

MARION, Ohio, July 5.—(By the Associated Press).—Governments cannot tolerate any class or group domination through force, President Harding declared yesterday in an address at a home-coming centennial celebration here.

Addressing thousands of "home folks" and out-of-town visitors who had gathered to welcome him back to Marion for his first visit since his inauguration, the executive told his audience he meant to sound no note of pessimism.

"This republic is secure," he added. "Menaces do arise, but public opinion will efface them. Meanwhile government must repress them." The president declared also that the 18th amendment must be upheld despite the opinion of the "minority of citizens."

Commenting in a general way on the industrial situation, the president made this observation: "A free American has the right to live without any other's leave it would be no less an abridgment to deny men to bargain collectively and governments cannot tolerate any class or group domination through force. It will be a sorry day when group domination is reflected in our laws. Government is charged with the duty of seeing that the law is enforced, must be for all the people, ever aiming at the common good."

The president declared with emphasis that his "one outstanding conviction" after 18 months in the White House, was that the "greatest traitor in our country is he who appeals to prejudice and inflames passion when sober judgment and honest speech are so necessary to firmly establish tranquility and security."

Referring briefly to international relations of the United States, Mr. Harding said that all is well. "They are secure today with more assuring prospects of peace than ever before in the history of the republic. New guarantees have recently been added by the very process of exchanging viewpoints and bringing the spokesmen of great nations to the conference table. It is the duty of each nation to resolve to do together those things and nobler things which no one nation could do alone."

At the outset of his address, the president told his fellow townsmen it was "exceeding good to come home and meet with you again."

## Hardy Has Busy Day

MARION, Ohio, July 5.—President Harding's second day in Marion as a home-coming visitor, gave promise today of being the least strenuous he has spent since leaving Washington, last Saturday. Arrangements had been made for him to review an historical parade during the afternoon.

It was expected the president would spend most of the day with members of his family and intimate friends.

PAWTOCKET, R. I., July 5.—For the third time within a month, an attempt was made today to wreck the home of Anthony Durant in Carpenter street, Valley Falls. About 3:45 o'clock the house was struck by a bomb being thrown at it by a group of men. The explosion caused a hole in the side of the building, broke most of the windows and window sashes, tore off the plaster on the walls and ceilings, and damaged the furniture, but injured neither Mr. Durant or his wife who were the only occupants of the house and were sleeping in the attic. The windows of a house next door occupied by Manuel Silva, were also broken.

## BIG CUT IN JAPANESE ARMY

TOKIO, July 5.—(By the Associated Press).—In line with Premier Kato's initial pledge of military retrenchment and administrative economy, sharp cuts in the army program were announced yesterday. The plan after approval of a naval schedule which topped off 13,396 tons from former plans. Reorganization plans providing reduction of the army by 50,000 enlisted men, a cut of more than 20 per cent, were proposed by the war office and approved by the cabinet.

## REFUSES TO HONOR EXTRADITION PAPERS

ROME, July 5.—Gov. Davis of Ohio has refused to honor extradition papers from Georgia for Henry Maxey, a local man wanted in Florida on charges of murder, declaring that he would be lynched if brought back to this state, according to Sheriff Wilson, who has just returned from Cleveland, where the fugitive was arrested.

## EVERYTHING NORMAL

During the holiday period, traffic was particularly heavy on the Boston and Maine railroad. As yet the strike has made but little impression on the daily routine of the road, and everything is proceeding as regularly as could be expected under the circumstances. Practically all trains are running and leaving on per schedule and no noticeable delay has been caused in freight or passenger service. The roundhouse force, it was stated today, is sufficiently manned to meet any crisis which may arise.

## Pep Promised in Coming Photoplays

THE LITTLE GIRL LOOKS JUST LIKE MAE MARSH, DOESN'T SHE? WELL, THAT'S MAE'S LITTLE DAUGHTER, MARY. THEY'RE GOING TO EUROPE.

NEW YORK, July 5.—Too much footage ruins many otherwise splendid photoplays. The excess is usually bunk, called atmosphere. This bunk costs the exhibitor extra money and consumes more time in projection. As a result the audience sees a less diversified program.

Some reviewers, this one among them, have been campaigning for months for the elimination of this excess footage in feature pictures. Now Frank E. Wood, chief supervisor of the Lasky studio, says: "The day is past when an author and director feel it necessary to waste a reel or two at the start of a picture establishing such vague things as atmosphere and character environment. Our instructions are like those given the writer of popular fiction: 'Get your story going and keep it going.'"

Wood recites how the new order of things has been effected in three coming Paramount pictures. Here's the way "On High Seas" starts: Stateroom on ocean liner. Young society girl, irritated. Maid has forgotten to sew button on a slipper. In the hold rats leaving the ship. Men pumping water to stay afloat. On deck passengers fleeing to life boats. The girl refuses to believe she is in danger. The ship goes down. She finds herself in a leaky rowboat with two stokers.

And in "The Young Rajah": Sitting room of old New England home. Stormy night. Farmer and his wife interrupted by two East Indians, who bring with them a dark-skinned boy whom they treat with deference. They lay great sums of money on the table and many jewels. "Will you take the boy and these?" they ask.

Opening scene of "The Ghost Breaker": New Yorker visits old Kentucky home. Arrives in time to dodge feedist's bullets. Fight with out. Followed to New York by man who has sworn to kill him. They meet in a hotel elevator. New Yorker shoots first. Escapes into first room he finds. Spanish princess in bed. She saves him from police. He agrees to go to Spain with her to fight ghosts that all her ancestral castle.

Those three photoplays promise to contain the one element that all good photoplays contain, action. When the action of a feature film moves with such rapidity it generally can be told in five reels.

## TRAIN WRECK DEAD NOW SEC. DENBY RECEIVED BY JAPANESE ROYALTY

ATLANTIC CITY, N. J., July 5.—John P. Nee, 49 years old, 583 Line street, Camden, conductor of the Reading Owl train which plunged over early Monday morning, died in the Atlantic City hospital at 2 o'clock yesterday afternoon from his injuries, bringing the death toll of the wreck up to seven, all of whom have been identified.

Three passengers on the ill-fated train are in the hospital in critical condition, with small hope of recovery. They are Louis Colker, 624 Columbia avenue, Philadelphia; Frank Mascau, 1724 South 24th street, and Chas. Lukens, 6227 Beechwood street, all of Philadelphia.

Colker, who was a bridegroom of but a few hours, is not expected to live. The bride, who at first was believed to have been fatally injured, has improved and her condition is given as fair. She has not been notified of the critical condition of her husband.

Lukens, who is 55 years of age, was not classified with the seriously wounded Monday, but further examination has shown that he has sustained a fractured skull.

Out of the 22 injured in the hospital four were discharged yesterday. They are: Isadore Mittelman, this city, and his 9-months' daughter, Bernice. Mrs. Mittelman is still in the institution, but her condition is not serious. The others discharged were William Menzies, this city, and Mrs. Lella Gujahn of Philadelphia.

## SOVIET GOVERNMENT'S LOAN A SUCCESS

MOSCOW, July 5 (by the Associated Press).—The Soviet government's first internal loan is a success, according to the Russian newspapers. The 10,000,000 pool bread loan having already been subscribed. By persons subscribed 4,000,000 pool workers 3,000,000 and state institutions 3,000,000, papers say.

Russia's 1922 grain crop, according to present estimates, will reach a minimum of 3,500,000,000 pounds (63,000,000 tons) or one billion pounds more than those of last year, acting Premier Kamenev told the correspondent today.

From practically all sections of Russia, except the north, reports are pouring into Moscow showing that the grain is flourishing in ideal weather. The yield may be Russia's greatest crop since the war.

## SAYS EPILEPSY MAY BE CURED BY FASTING

LOS ANGELES, July 5.—Epilepsy may be cured by fasting, according to the theory advanced by Dr. Hugh Conklin, speaking here before the 25th annual convention of the American Osteopathic association.

Epilepsy, according to Dr. Conklin, is caused by improper functioning of glands in the bowels. By pouring the patient to take only water for 32 days, a cure may be effected, he said.

## GERMAN RAILWAYS

Remarkable Progress in Construction of Rolling Stock

BERNE, Switzerland, July 5 (by the Associated Press).—The 150,000 freight cars and 5000 locomotives delivered to France by Germany since the armistice have already been replaced by new material, according to a Swiss delegate, who has just returned from Berlin, where he attended a technical conference of railway men.

The extraordinary has been the progress in the construction of rolling stock in Germany, this expert declares that by Aug. 1 the German railway will be at least as well equipped as they were at the outbreak of the war.

## ROY SCOUT DRIVE

Deputy Regional Executive W. E. Brown, in charge of the Boy Scout drive, stated today that the tag day set for the Fourth was called off on account of weather conditions, and that no other attempt to raise funds in that manner will be undertaken until September 1st. The meeting of the general committee will be held next Monday evening, and at that time the drive will be brought to a close.

## STREET CAR DERAILED

A North Chelmsford bound car was derailed about 10:45 this morning at the corner of Central and Middle streets. As the car was turning the corner on to Middle street, the rear wheels left the rails. The wrecking crew was called and the damage quickly repaired.

## What "Three M's" Taught Peggy Joyce

PEGGY HOPKINS JOYCE

BY JACK JUNGMEYER  
LOS ANGELES, July 5.—What divi-  
dends has Peggy Hopkins Joyce drawn  
from her varied ventures in men, mal-  
lions and millions?  
What tips has she for other fair  
dealers in heart-warrior who have en-  
vied "the million-dollar doll" her  
chances at happiness and luxuries?  
These, from the own charmed lips,  
as she settles down to a prospective  
business career and calculates the sal-  
vage of her romantic shipwrecks:  
"I have learned from experience that  
hard work and sincere effort, not pam-  
pered idleness, point the only way to  
happiness."  
"The gay white ways don't even give  
an approximation of it."  
"My possessions"—said to be some-  
where near \$2,000,000—"and my heart  
quests have brought me nothing but  
wretchedness."  
"I don't know what sort of man I  
should prefer. I want to look for  
one. Excuse me, I have had has been  
wretchedly shattered."  
"My respect goes to the man who is  
clever, courteous and considerate, who  
has brains and personality, irrespec-  
tive of his appearance or possessions."  
"It is that type that starts the real  
glow in a woman's heart, not jewels  
and motors."

"The most successful wooers, I  
have observed, are those who think of  
the little things that please a woman's  
whims not the sleek fops who are in-  
variably selfish."  
"And the most durable husband is  
he who takes his wife into his con-  
science and makes a real partner of her."  
"Beauty is the least important in-  
gredient in charm."  
"Brains are the chief requisite for  
fascination. Without them a man or  
woman is rapid and inconsequential."  
"When there is the attraction of eyes,  
—especially those indicating under-  
standing and kindness."  
"Tact and a smiling countenance are  
very important elements."  
"Almost any woman can acquire the  
qualities that captivate worth-while  
men, and they put more good looks  
completely in the shade."  
Peggy herself is thin, almost angu-  
lar, and not a pronounced beauty. But  
she has the challenging violet eyes, the  
tact and the smiling countenance she  
considers impelling.  
"And at least brains enough," she  
laughs, "to realize that I have been on  
the wrong track in seeking happiness."  
"I may marry again," is her post-  
script, "but when I do it will be a 100  
per cent real man."

## Packard Case to the Courts

Continued  
junction will be filed tomorrow with  
the clerk of the supreme judicial court  
by Mr. Gilbride, and it is expected that  
a preliminary hearing on the matter  
will be ordered within a very few  
days.

Action is being brought by the as-  
sociation on the claim that the may-  
or's Packard was registered with the  
state registrars of motor vehicles two  
or three days before competitive bids  
were opened by the purchasing agent,  
thus making the bidding competitive  
in name only. As to the two 5-ton  
trucks, it is alleged by the association  
that they were purchased without the  
sanction or approval of the board of  
public service and with the under-  
standing either being called for or re-  
ceived.

Legally, the action of the association,  
through its attorney, is based on Sec-  
tion 53, Chapter 40 of the general laws,  
which is captioned "Abuse in Corpo-  
rate Powers and Illegal Expenditures."  
In substance this section says that  
if a city is to incur obligation in any  
manner other than that for and con-  
sistent with the legal and constitu-  
tional rights, the supreme judicial  
of the superior court may, upon pe-  
tition of not less than 10 taxable inhabitants,  
determine the final determination of the  
cause, restrain the unlawful exercise of  
abuse of such corporate powers.

In addition to this section of the gen-  
eral laws, the association bases its  
contention of illegality on two sec-  
tions of the city charter having to do  
with the advertising and opening of  
bids upon all purchases made in be-  
half of the city in excess of \$500 in  
cost.

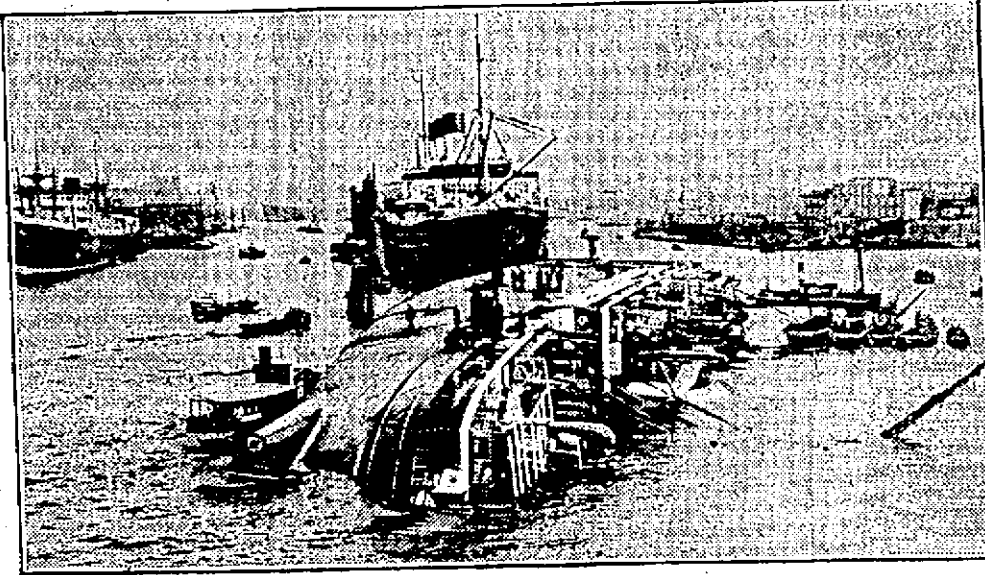

The city this year has purchased  
three Packard trucks of five ton ca-  
pacity for street department use. One  
of these has been paid for, but two  
others still stand as unpaid charges.  
When the board of public service  
learned of the purchase of the two last  
named trucks, items covering them  
were stricken from the bill sheet and  
no bills thereafter have reached the  
city auditor.

In the case of the Packard touring  
car purchased by the mayor, no charge  
has appeared in the auditor's office, nor  
has any bill been received. The bid  
submitted on this car was \$2993.  
The court action on the part of the  
local dealers' association was foregone-  
taken several days ago, when it became  
known that a meeting of the asso-

ciation was scheduled for the purpose  
of discussing the purchase of the three  
machines. This meeting was held on  
Monday of this week at the office of  
George H. White, real agent, in Mid-  
dlesex street. Twelve members of the  
Association were present and deter-  
mination to take the matter to law  
was made at that time and Mr. Gilbride  
was retained as counsel.

The signatures of 10 of these de-  
alers will be affixed to the peti-  
tion for an injunction, as required by  
law.

Records in the office of the city pur-  
chasing agent show that no bids were  
received prior to the delivery of the two  
Packard trucks, although the orders  
for them were written in that office.

## Lenroot Warns Tariff Bill Leaders

WASHINGTON, July 5.—Majority leaders in charge of the admin-  
istration tariff bill were warned today in the senate by Senator Lenroot,  
Republican, Wisconsin, a leader of the progressive group, that unless  
some of the high duties proposed in the tariff bill were "brought within  
reason" he would reserve the right to vote against the measure.

## 9300 Guardsmen to Go to Camp

BOSTON, July 5.—Lieut. Col. Frederick W. Stopford, in charge of  
national guard activities in New England, announced today that 500  
officers and 8800 guardsmen of the New England states would go to  
camp for two weeks at various places in this section, on Saturday,  
July 8.

## Car Strikers Hold Meeting

Continued

Billie's shops were discharged Mon-  
day after refusing to perform manual  
labor in the plant. It was stated that  
of the 56 foremen who remained on the  
job after the walk-out, 12 of them re-  
fused to do the work formerly done by  
the mechanics of the plant and that  
as a result they were discharged and  
ordered to turn in their passes.

As far as could be learned no other  
attempt has been made by the shop  
officials to fill the places of the strik-  
ers at the car shops, but a machinist  
and a blacksmith, it was stated this  
noon, are at work at the roundhouse  
in Middlesex village, where the strike  
is also in effect.

Officials of the crafts stated this  
noon that an attempt to put strike-  
breakers at work yesterday was foiled  
by the pickets who were on duty at  
the roundhouse. Six men were on their  
way to the roundhouse when they  
were politely held up by pickets. After  
being informed that a strike was on,  
they went to strike headquarters. There  
they informed the strikers that they  
had been hired by a construction com-  
pany in Boston to do what they were  
told would be structural work in Low-  
ell, and they claimed they were not  
striking. After they had told  
strike-breakers.

After their story the men were given their  
fare to Boston and were escorted to  
the railroad station, where they all  
boarded a train for the Hub.

The strikers will hold daily meetings  
in Colonial hall, at Forest street, and  
many of the executive board stated  
today that perhaps tomorrow they will  
issue an official statement relative to  
the strike.

Members of the various crafts of  
the carshops will be paid off tomorrow  
at No. 2 freight house in Thorndike  
street as follows:

Members of the plant—Division 1, 9 a.  
m.; Division 2, 9:20; Division 3, 9:40;  
Division 4, 10; Division 5, 10:20; Divi-  
sion 6, 10:40; Division 7, 11; Division  
8, 11:20; Division 9, 11:40; Division  
10, 12 m.; Division 11, 12:30 p. m.;  
Division 12, 1:20 p. m.

Carshop plant—Divisions 1, 2, 3 and  
4, 2 p. m. and Divisions 5 and 6, 2:15

## Shopmen Play a Lone Hand

Continued

mon labor, definitely abandoned the  
idea of a walkout at this time.

Credit for averting a rail strike,  
which threatened to become general  
among all classes of railroad labor  
except the "big four" Brotherhoods  
and telegraphers was generally con-  
ceded to Ben W. Hooper, chairman of  
the United States railroad labor board;  
W. L. McMenhnen, labor member of  
the board, and E. F. Grable, president  
of the Maintenance of Way Men—the  
"big three" at the conference.

As a result of the holiday confer-  
ence nearly 400,000 maintenance of  
way men, who for a week hovered on  
the verge of a strike after voting  
overwhelmingly in favor of a walkout  
will remain at work.

The maintenance men will stay on the  
job under protest against the \$60,000-  
000 cut in their wages, pending nego-  
tiations for a readjustment of wage  
scales upon an appeal by the employees.  
With their common labor problem  
out of the way, railroad officials  
throughout the country were waiting  
today for the first definite disclosure  
of the effect of the shopmen's strike.

Over the holiday rail officials said it  
was impossible to determine how  
many employees of the six shop crafts  
actually had responded to Saturday's  
strike order. When the whistles blew  
today the railroad began on inventory  
of their shop workers.

Negroes to Replace Strikers  
PARKERSBURG, W. Va., July 5.—  
About 50 negroes have arrived here  
from eastern and southern points and  
will be employed as car cleaners in the  
Baltimore & Ohio railroad shops.  
It was announced last night. The ne-  
groes' camp is surrounded by guards.

More Men at Work  
BOSTON, July 5.—Officials of the  
Boston & Albany railroad, after a  
checkup of repair shop forces following  
the holiday, reported more men at work  
than on Monday. Train service, it was  
said, continued normal.

Full forces of maintenance of way  
workers were on duty at important  
yard centers in Allston, West Spring-  
field, North Adams and Reusselaer, the  
road's statement said.

## Jack Pickett, Veteran Ball Player, Dead

CHICAGO, July 5.—John Thomas "Jack" Pickett, a familiar figure  
on professional baseball fields in the days of Cap Anson, is dead here  
today. For 24 years he had been manager of the A. C. Spalding bat  
factory. Pickett played with Philadelphia, Baltimore, Brooklyn and  
other teams of the old National league and wound up his career on the  
diamond as manager of the Green Bay team in the Wisconsin-Illinois  
league.

## Three Shot in Streets of Belfast

BELFAST, July 5.—There was a recurrence of shooting in the

## DROWNED AT BIDDEFORD JULY 4TH OBSERVED THROUGHOUT FRANCE

Mathias Doyon Lost Life—

Mayor Drapeau Nearly Drowned in Rescue Effort

BIDDEFORD, Me., July 5.—Mathias Doyon of Biddeford was drowned while bathing yesterday afternoon at Fortune's Rocks near here, and Mayor Edward H. Drapeau of this city almost lost his life in attempting to save Doyon. Mayor Drapeau towed the drowning man to within 20 feet of the beach and then saved himself with difficulty, reaching the shore exhausted.

The two men went in bathing when the tide was going out and there was a heavy undertow. Doyon, a feeble swimmer, was carried out to sea, and Mayor Drapeau swam to his assistance. Doyon at first threw his arms about the mayor's neck and both were in danger of drowning, but finally he was persuaded to hold Mayor Drapeau's foot while the latter made for shore. A short distance from land Doyon let go and was carried out again.

Mayor Drapeau collapsed when he touched the beach and was assisted to his summer cottage by spectators. Last night he was removed to his home here. Doyon, who was 43 years old, was a native of Canada but had lived here 30 years. He leaves a widow and two children.

## FEROCIOUS FISH CAUGHT

Consternation Has Spread Through Bathing Circles Near Montreal

MONTREAL, July 5.—Consternation has spread through bathing circles here by the capture of a barracuda near Montreal, one of which ferocious fish recently caused the death of Miss McClatchie of Montreal when she was fatally bitten while swimming off the Florida coast.

Fishing in Lachine rapids, two men caught a barracuda, which they were forced to stab to death when it attacked them.

## BIG CELEBRATION IN GRANITEVILLE

Despite the inclement weather, the Fourth of July celebration was held yesterday in Graniteville according to schedule.

The street parade was the feature attraction of the day. Harry Whitney, chief of Police, Harry Whitney, and followed by the Abbot Worsted band, James P. Larkin, leader, the parade made a big hit along the line of march.

Those responsible for the success of the parade were P. Henry Harrington, Dr. Fabian Packard and J. A. Healey, who also served as a committee of judges to decide the winners for the best appearance in line. After careful consideration prizes were awarded as follows:

Best feature, won by the Highlands division, turkey truck and toy wagons; second, Westford Legion float. "Betty Rosa with Flag," Mrs. Fabian Packard, Sgt. Joseph A. Perkins; best individual prize won by Miss Regina McLenna as "Columbia"; second, Miss Beatrice Milott, funny costume. Mrs. H. Brule, "Old Colonial"; and Miss Hatlie Boyd as "Uncle Sam." The following were adjudged worthy of honorable mention:

For special features, Abbot Worsted band and members of Cameron circle; individual costumes, Misses Bertha Reeves, Mabel White, and Norma; comic costumes, Della Maslaba, Mary Profita, Mr. Degagne and partner, Irene Reeves, Irene Carpenter, Oscar Benson. A long list of sports followed the parade and prizes were awarded to the following winners:

100 yards dash, won by John O'Connor; 2d, Pete Farquhar; 3d, George Cover. 1-mile race, won by Phil Healy; 2d, J. O'Connor; 3d, Pete Farquhar; 75 yard dash for girls, won by May Woods; 2d, Laura Guilhard; 75-yard dash for little girls, won by Jennie Blott; 2d, Rita Pondlebury; big boys' race, won by Richard Wall; 2d, Walter Marynoski; 3d, Phil Healy; 100-yard race, won by Phil Healy; 2d, J. O'Connor; 3d, Richard Wall; mile bicycle race, won by Clyde Donett; 2d, Earl Stuart; 3d, Edward Harrington; three-legged race for girls, 1st, Mae Woods and Jennie Blott; 2d, Philman Gagnon and Dora St. Marie; three-legged race for men, 1st, Albert and Oliver Reeves; 2d, Eugene Guilhard and Walter Blott; 3d, Albert Healey; 1st, Lester Reeves; 2d, J. O'Connor; 3d, T. McNiff; wheelbarrow race, 1st, G. Gower and John McManon; 2d, Lester Reeves; broad jump, J. Ellsworth York; 1st, 2d, Walter Blanchard; 3d, Jon Murphy. The committee in charge of the celebration were: A. R. Will, chairman of the general committee; John W. Shackleton, secretary; Carroll M. Sawyer, treasurer; H. J. McCarthy, chairman of sporting committee; Edmund Provost, clerk of course; Fred M. DeFos, starter; R. J. Hemen, J. W. Shackleton, J. Ellsworth York, judges.

PARIS, July 5.—Independence day, which now has become an established institution in France and other European countries, was observed generally with the participation of government and local authorities. There were the usual decorations at the George Washington monument and the other features common to all the celebrations. The head of the French government took a prominent part in the day's observance, and delivered the principal speech at an Independence day dinner in Paris yesterday.

After reviewing the birth of the American republic and the French participation in the Revolutionary war, M. Poincaré declared: "Our two governments have again found themselves side by side on the morrow of new hardships suffered in common and also new common successes. After we had in the 18th century, according to Benjamin Franklin's words, 'defendant together in the liberty of Europe we have had to defend together in Europe the liberty of America, threatened, like that of the whole world, by German imperialism.'"

"I suppose I'm just one of the many happy housekeepers who are praising Sylpho-Nathol.

"It's such a help. It's so dependable. It's such a positive protection against unpleasant odors and germs.

"I used to think that soap and water and plenty of energy were all that any one needed to keep a house healthfully clean. I never stopped to think of disease germs that tuck themselves away in cracks and crannies where ordinary means won't budge them. And as for the unpleasant odors that start so easily in sinks and cellars and garbage cans of the best kept homes—I tried to put up with them as necessary evils.

"How different I feel since I've been using Sylpho-Nathol. Fred says that I use it on every square inch of the house. I know that it goes into every pail of mop-water. Sylpho-Nathol is a real germ-destroyer—4½ times stronger than carbolic acid, though the druggist says it is as safe to have in the house as a cake of scouring soap. I pour it down sink drains, because it keeps away the smells such places develop so quickly. I use it in the mop water. I sprinkle it over the garbage every day, because the flies won't come near it. I use it regularly around the bathroom fixtures and as a flush for the closet bowl. Sylpho-Nathol makes a perfectly wonderful sprinkle for damp, dark cellar corners and attic nooks and other places where there is a chance for odors to start or germs to breed."

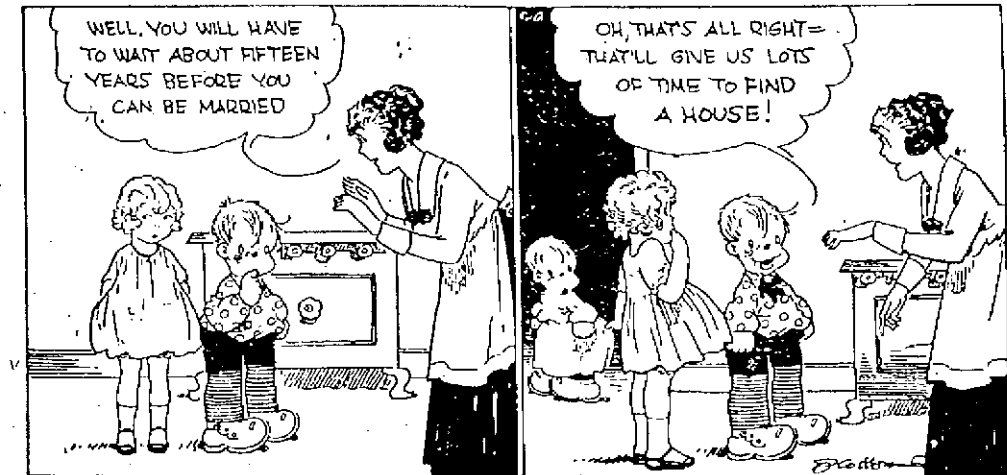

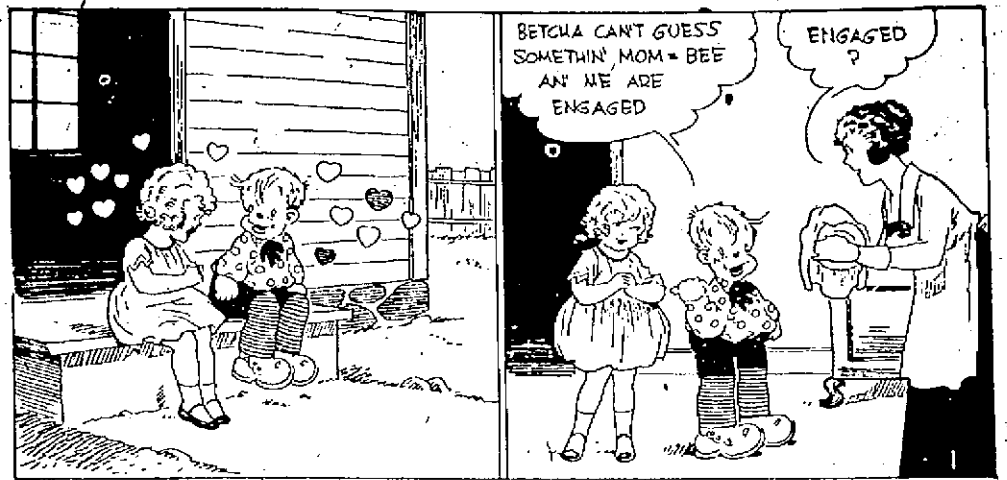

It's so easy to prepare. A teaspoonful in a quart of warm water makes a clean-smelling, peaty-gray solution that's ready for immediate use.

Sylpho-Nathol comes in four handy sizes, 15c, 35c, 65c, \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it easily. Just ask for it by the name—"Sylpho-Nathol."

Save your self hours of discomfort  
**Resinol**  
Is what you want for your skin trouble—Resinol to stop the itching and burning—Resinol to heal the eruption. Scratching makes it worse. Besides being embarrassing and dangerous, the smooth gentle ingredients of RESINOL OINTMENT often overcome the trouble promptly, even if it is severe and long-established. Bathing the affected part first with RESINOL SOAP hastens the beneficial results. Resinol products at all druggists.

## GOVERNMENT OPERATES LOGGING INDUSTRY

OKMULGEE, Okla., July 5.—Arrangement of Gov. J. B. Robertson of Oklahoma on a charge of accept-

ing a bribe to permit a state bank to operate when he knew it to be insolvent, was set in district court here today.

Thirteen other men prominent in banking circles of Okmulgee county and indicted with the governor on March 2, after a sweeping grand jury investigation into alleged irregularities in the state banking system also were up for arraignment. Included among these were John P. Cook and John H. Rehold, president and vice-president, respectively, of the Guaranty State bank, who are charged with having paid a bribe of \$25,000 to Governor Robertson and Fred G. Dennis, former state bank commissioner. It is charged that the executive received one-third of the amount.

## MAYOR TALKS ABOUT CONFERENCE

Mayor George H. Brown said today that he believes there will be a conference between members of the city council and himself before the time of the council meeting tomorrow night to discuss the removal of Dennis J. Murphy and Fred G. Leary from the board of public service.

The demands of these two city officials for public hearing will be received by the council tomorrow night and in the ordinary course of events a date for hearing would be set.

Just what may be gained or decided upon by the conference above mentioned, could not be learned from His Honor. He said that the conference might result in shortening the hearing and then again, it might not—he could not tell.

It is believed that the council, in session, will take action upon the following nominations now on the table: Edwin T. Shaw, to succeed Daniel E.

Hogan as a member of the board of assessors; Dr. William F. Ryan, to succeed Dr. Michael A. Tighe as city physician, and Harry W. Leavitt, for president of charities.

## QUESTION EXTENT OF EMERGENCY

Attorneys for the First National Bank of Boston have raised a question as to the extent of emergency involved in the \$25,000 loan order for the purpose of acquiring land in First street for an extension of Varnum park.

The order was introduced as an emergency measure and adopted at last Thursday night's meeting of the council. The Boston attorney, however, hesitates to confirm the loan to the bank on the question of whether it is of sufficient urgency to be properly classified as an emergency proposition.

It is now believed that the council will be asked to reconsider the loan order tomorrow night and order it advertised, thus eliminating the emergency clause.

Some of the Reasons for the Wonderful Success of the Bay State

A beautiful, comfortable, easy-riding car; big tire mileage; low gas consumption. Sold direct at factory branches with only one profit. Service and parts at cost. Built to last many years with a high resale value. Bay State owners are free from care, having at their services factory branches in all large cities, making touring a continued pleasure.

You are invited to ride in a Bay State today and compare it in every detail with cars selling from \$3000 to \$5000.

Sooner or later you are bound to be interested in one of our models. It may be the Sport Roadster, the busi-

ness Coupe, the Open Model or the Bay State Sedan which has no superior as a family car. Bay State owners will appreciate the real value of their cars when they have reached the 50,000-mile mark. Compared with other cars at 20,000 miles, at a reasonable cost may be overhauled completely and put in good order. They are carefully made in all details. The doors and windows are made to fit and will not rattle and squeak like cars with steel bodies. There are many cars with good qualities, but as one Bay State owner says: "From end to end, top to bottom, day to night, rain or shine, there is no car like the Bay State."

## OUR BOARDING HOUSE

## NIGHT BEFORE BON FIRE IN NO. BILLERICA

Although the drizzling rain of Monday night was hardly the most auspicious or desirable circumstance attendant upon night before the Fourth celebration, a crowd estimated at 4000 or more people gathered on the Kohl-rush playground in North Billerica just before midnight, to witness the lighting of the huge bonfire, under the auspices of Billerica Post, American Legion.

The great crowd assembled in the playground and in automobile and on foot in the streets near by saw a streak of flame rapidly ascend the great pile, 10 feet in height, surrounding a telegraph pole and built of all sorts of material collected by the ex-soldiers. Forty gallons each of oil and tar had been distributed throughout the great heap to make for its combustibility, and the first flames rapidly spread throughout the railroad ties, tar barrels, oil barrels and other material. A great number of the spectators were disappointed until the structure was demolished and the last spark extinguished by the teaming rain.

Although the rain made the spectators extremely uncomfortable, it removed all danger of the flames spreading to the adjacent buildings. It did not interfere with the bonfire itself, some hundreds of feet away, immune from descending sparks. The light wind which prevailed drove the sparks in the opposite direction, however, and the presence of the North Billerica fire company and its apparatus was an added gratification to the legion members connected with the blaze and to the spectators in general. The whole affair, despite the weather, was a most auspicious opening feature of the day's celebration.

The auxiliary of the Billerica post assisted in the work, under the guidance of President Lillian Buckley. On the Colson street side of the playground a number of booths were erected to dispense refreshments to whomsoever desired gustatory entertainment. The ladies were forced to renew their stock of eatables soon after the bonfire commenced.

The good nature and resulting good order of the large crowd made the services of the police officers superfluous, and the affair was notable in this respect. Cars carried many of these present from Lowell to their homes, while the remainder, in automobiles, remained to the finish.

Congratulations have been pouring in on the legion post from all sides on the success of their undertaking. Much labor and planning was necessary in the preparation of such a pretentious bonfire, and while contributors of material, many and varied, were also recognized for their part in the occasion, the ex-soldiers men deserved all the credit for the splendid manner in which they ushered in the grand and glorious Fourth.

## NEW BUILDING INSPECTOR

The department of public safety has assigned Henry F. McCall, of Pittsfield to the Lowell district as state building inspector as successor to Angus H. McCall who returns to the Salem district after four years' work in this territory. Besides Lowell and suburban towns, Mr. McCall will also have charge of Lawrence and Haverhill.

## JAPAN FOR PEACE ON LAND AND SEA

TOKIO, July 5.—(By the Associated Press)—That Japan stands for peace on land and sea and maintenance of the unbroken friendship existing between herself and America were outstanding sentiments expressed in the address made yesterday by Premier Kato at the luncheon given him in honor of Edwin Denby, secretary of the navy and visiting member of the Annapolis class of 1881 by Premier Kato. Premier Kato said:

"We are not only willing, but anxious to maintain and constantly develop the unbroken friendship that exists between our nations. It seems to me that if we in America and Japan are sincere in our purpose we must perpetuate the understanding between our countries."

"In co-operation with the leading nations of the world we ought to be able to maintain far into the future the peace that now rests upon the seas, and if we succeed in this it must follow that peace upon land will be generally preserved and steadfastly promoted."

COPENHAGEN, July 5.—Man's costumes of the 13th and 14th centuries have been found in Greenland. They are in an excellent state of preservation, and resemble the clothes worn by Dante in the published pictures of the Italian poet. They are not yet open to public view, but may be exhibited at some future date.

These interesting finds were made by Dr. Neerlund, a Danish scientist, while excavating in ancient burial grounds in the southwestern part of Greenland. They are the only existing specimens

in the world of garments worn by man in the 13th and 14th centuries. Being deposited in the frozen earth for about 600 years has preserved them from destruction by moth and age. The garments are now in Copenhagen and deposited in the Danish collection in the museum housed in the Prince's palace.

Dr. Neerlund has found also several old wooden crosses in the frozen earth. They are covered with inscriptions in the Gothic runic script, and are considered by scientists to be of great historic value.

## BAZAAR CLOSED

The bazaar organized by the directors of the Holy Trinity Greek community for the benefit of the community fund was brought to a close last night. The event was conducted in the basement of the church in Jefferson street, where articles donated by members of the community in the recent drive for funds to pay off the community mortgages, were on exhibition. Tickets for the drawing contest were sold at one dollar each and the holder was entitled to whatever article bore the number that appeared on the ticket. Bishop Germanos Trolanos of New York was a recent visitor at the church.

## MILL WILL POST WAGE REDUCTION NOTICE

Notices announcing the specific amount in the reduction in wages at the Merrimack Mill Co. will be posted in the plant some time this week, and when the operatives return to work next Monday morning after a shut-down of a week, they will know just what their wages will be in the future. The readjustment of wages as announced by Agent Wadleigh last week, will go into effect next Monday morning, July 10.

Agent Wadleigh informed the Sun this morning that he is not yet ready to state just what the reduction will be, and when asked if it would vary according to the nature of the work, he said he did not know. He indicated that the readjustment is now going on and he further stated that notices will be on the walls of the mill when the plant reopens next Monday morning.

At strike headquarters it was stated this morning that because of the inclement weather the attendance at the meeting of the unemployed employees of the Merrimack mills, which was held in Trades and Labor hall at 10 o'clock, was not as large as anticipated, but nevertheless, there was a fair attendance. These present were instructed as to what to do if they were not satisfied with the announcement of the mill officials, and several of them have started up to become members of unions affiliated with the United Textile Workers of America. Similar meetings will be held tomorrow, Friday and Saturday mornings.

General Organizer Thomas J. Reagan of the U.T.W. of A. spent the holiday at home and he left this afternoon for Waver. From there he will go to Adams and Cohasset, N. Y., and then to New York, where he will return to Waver Sunday for a big mass meeting.

A special meeting of the strike committee will be held this evening at strike headquarters at 7:30 o'clock. Arrangements are being made for a mass meeting of all the strikers and employees of the Merrimack on the South common Sunday evening at 7 o'clock. Out-of-town speakers will address the gathering.

## MYSTERY VEIL COVERS SHOOTING OF SOLDIER

Found slithering about on the Allen street bridge early this morning with a bullet wound under his right eye, Jose Garcia, 32, of 13th St., S. Infantry, stationed at Camp Devens, was taken to the Lowell Corporation hospital in a serious condition.

At the hospital Garcia steadfastly refused to tell how he was wounded or any other details in connection with the shooting. All attempts to make him talk proved unavailing. Late this morning Police Chief Atkinson visited him and he too, at first, was unable to make the man disclose his version of the shooting. After the chief explained to Garcia that it would be best for concerned in the details of the case were known, the soldier made a partial confession. Owing to his weakened condition he was unable to speak at any great length.

For the present the police are withholding all information in connection with the shooting, which first appeared to be a mystery. They added that Garcia's story is as unusual as a warrent further investigation before taking action. Developments, some of them of a startling nature, are expected to occur within the next 21 hours.

Just before daylight this morning a man walking across the bridge noticed Garcia slithering towards him. The soldier collapsed as he reached his side. Another passerby helped carry the man to a nearby lunch room, where he hurried examination showed he had been shot in the right arm. Garcia was secured and the soldier rushed to the hospital.

An X-ray of the wound was taken today and it showed the position of the bullet in the right side at a point just below the lung. At the hospital today it was reported that an attempt will be made to remove the bullet to the base hospital at Camp Devens.

## AUTO ACCIDENTS OVER THE HOLIDAY

There were five automobile accidents in this city Monday night and yesterday, but fortunately none were serious. The first occurred shortly after 7:30 Monday night when Bertha Harrow, aged 2 years and residing in Keene street, was struck by an automobile in Gorham street at a point near St. Peter's church. The driver of the car was George A. J. of 15 of Pine street, while the machine was owned by Henry J. Duchesne of 323 Main street. The child was taken to St. John's hospital, where she is being kept under observation.

At 11:25 o'clock Monday evening a man named Tony and residing at 215 Fayette street, was struck and knocked down by an automobile on the corner of South and Appleton streets and received slight injuries, which were treated at St. John's hospital. The car that figured in the accident is owned by Joseph B. Shay of 21 Eighth street and was being operated by Paul H. Smith of Pine street.

Michael Quintal, aged 15 and residing at 13 Lawrence street was struck and knocked down by an automobile at the corner of John and Merrimack streets yesterday afternoon at 1:30 o'clock. He sustained injuries to his leg and hip and received treatment at St. John's hospital. The driver of the car was Elinore Polson of 15 Federal street, Fitchburg.

Wilfred W. Greene of Middlesex street reported to the police that at about 6:45 o'clock last night his automobile collided with that of Russell A. Caswell of 237 Central street, in North Billerica, at a point near the pumping station. Greene claimed that he was following Caswell's auto, when the latter stopped suddenly and then the crash occurred. Both machines were damaged and Mrs. Greene and another woman, who were in the Greene car were slightly injured.

## HYPER HEARING POSTPONED

Definite information that the hearing scheduled to be held in Washington on the 11th of this month on the question of making the Merrimack River navigable is to be postponed until next fall was received today by Mayor George H. Brown. The mayor received a letter from O. M. Hoffman, colonel of engineers, saying that a postponement had been decided upon before the date in the fall to be fixed later. Colonel Hoffman is a member of the board of engineers for rivers and harbors.

## STOCK MARKET

NEW YORK, July 5.—Heaviness of Mexican Petroleum which soon declined 3 1/2 points was the only exception to the higher trend of prices at the opening of today's stock market. Developments over the holiday evidently were favorably construed, judging from the firmer tone of the general list. Studebaker, Coca Cola and Du Pont were among the strongest features at average prices. General Asphalt, Pullman, Virginia Carolina Chemical and several of the secondary rails. Pan-American Petroleum was only slightly depressed by the reaction of Mexican. Early exchange rates were irregular but higher in the main, German marks standing.

Mexican Petroleum was weakest in the final hour, showing a loss of over 10 points despite the demand for domestic oils. The closing was irregular.

## CHICAGO MAN NAMED

Nominated for President of National Education Association at Boston

BOSTON, July 5.—William Bowen of Chicago was today nominated for president of the National Education Association by the committee on nomination, which is composed of representatives of the various state delegations.

The action of the committee is subject to ratification by the representative assembly at a meeting Friday morning. Mr. Bowen is president of the Chicago Normal college.

J. A. Leighton, professor of philosophy in Ohio State university, at an address before the department of higher education made a plea for greater participation by faculty members in university government. This, he said, would result in "a more cordial and efficient co-operation of the chief parties involved in the business of higher education and an increase of respect, initiative and sense of responsibility on the part of faculty members."

He held it would liberate the academic mind from "the too narrow and parochial points of view of the mere specialist" and would bring about the development of "a more dynamic and broadly humane type of teacher."

Elimination of politics from the office of county superintendent of schools was recommended to the association in the report of a committee on county superintendents' problems of which Lee L. Driver, Harrisburg, Pa., is chairman. As the hub of the county educational wheel, the superintendent, Mr. Driver said, should be selected carefully for training, vision and ability to lead.

The county superintendent, the report said, should have plenty of well trained assistants to relieve him of his supervisory work, and be given at least limited powers of administration and control over his schools by requiring his approval of teachers, school building equipment, and organization.

Large Teacher's Pension  
A resolution calling for urgent action by teachers in each state to obtain a pension system in every region, was passed unanimously at the first business session of the representative assembly. The resolution presented by Philip B. Carlson, president of the Minnesota Education association, declared that "every year of idleness in securing a pension system increases the burden of superannuation and the resultant inefficiency in our public schools and causes privation to hundreds and anxiety to thousands of teachers."

Louis Nussbaum, assistant superintendent of schools in Philadelphia, invited the association to hold its 1926 convention in that city.

MATRIMONIAL  
The marriage of Mr. John Gallagher and Miss Vera Cornell took place Monday afternoon at the Merrimack Hotel. The bride was attended by her sister, Miss Hazel Cornell, who wore blue tulle and carried a bouquet of white roses. The best man was Mr. James Gallagher, a brother of the bridegroom. The bride's gift to the bridegroom was a silk umbrella, while the bridegroom's gift to the bride was a pair of gold cuff links. At the close of the ceremony a reception was held at the home of the bride, 13 Alder street, and present were guests from New York, Boston, Worcester and Springfield. The couple left on a honeymoon trip to New York, Boston and Worcester, and after Aug. 1 they will be at home to their friends at 27 Alder street.

RESTING COMFORTABLY  
At the Lowell Corporation hospital this afternoon it was reported that Albanese Dolajlo and Francis Trainor, suffering from knife wounds, and Jose Garcia, a soldier from Camp Devens, who was shot in the right thigh, are all resting very comfortably and nothing has arisen to cause their condition to be considered serious. Frank Bouchard, another knife victim, was reported at St. John's hospital to be in good shape. None of the injured men is to be released today, as far as can be learned.

LOUSEY PETITION DENIED  
CAMBRIDGE, July 5.—The petition of Clarence W. Laid, Maine, who was arrested, asking compensation for time he spent in jail, prior to trial for the murder of a patrolman, was denied by Judge John P. Brown in superior court today. Laid, who was acquitted of the murder several months ago, asked compensation under a statute permitting payments to persons held in jail more than six months on a capital charge.

NEW YORK, July 5.—Heaviness of Mexican Petroleum which soon declined 3 1/2 points was the only exception to the higher trend of prices at the opening of today's stock market. Developments over the holiday evidently were favorably construed, judging from the firmer tone of the general list. Studebaker, Coca Cola and Du Pont were among the strongest features at average prices. General Asphalt, Pullman, Virginia Carolina Chemical and several of the secondary rails. Pan-American Petroleum was only slightly depressed by the reaction of Mexican. Early exchange rates were irregular but higher in the main, German marks standing.

Mexican Petroleum was weakest in the final hour, showing a loss of over 10 points despite the demand for domestic oils. The closing was irregular.

## CHICAGO MAN NAMED

Nominated for President of National Education Association at Boston

BOSTON, July 5.—William Bowen of Chicago was today nominated for president of the National Education Association by the committee on nomination, which is composed of representatives of the various state delegations.

The action of the committee is subject to ratification by the representative assembly at a meeting Friday morning. Mr. Bowen is president of the Chicago Normal college.

J. A. Leighton, professor of philosophy in Ohio State university, at an address before the department of higher education made a plea for greater participation by faculty members in university government. This, he said, would result in "a more cordial and efficient co-operation of the chief parties involved in the business of higher education and an increase of respect, initiative and sense of responsibility on the part of faculty members."

He held it would liberate the academic mind from "the too narrow and parochial points of view of the mere specialist" and would bring about the development of "a more dynamic and broadly humane type of teacher."

Elimination of politics from the office of county superintendent of schools was recommended to the association in the report of a committee on county superintendents' problems of which Lee L. Driver, Harrisburg, Pa., is chairman. As the hub of the county educational wheel, the superintendent, Mr. Driver said, should be selected carefully for training, vision and ability to lead.

The county superintendent, the report said, should have plenty of well trained assistants to relieve him of his supervisory work, and be given at least limited powers of administration and control over his schools by requiring his approval of teachers, school building equipment, and organization.

Large Teacher's Pension  
A resolution calling for urgent action by teachers in each state to obtain a pension system in every region, was passed unanimously at the first business session of the representative assembly. The resolution presented by Philip B. Carlson, president of the Minnesota Education association, declared that "every year of idleness in securing a pension system increases the burden of superannuation and the resultant inefficiency in our public schools and causes privation to hundreds and anxiety to thousands of teachers."

Louis Nussbaum, assistant superintendent of schools in Philadelphia, invited the association to hold its 1926 convention in that city.

MATRIMONIAL  
The marriage of Mr. John Gallagher and Miss Vera Cornell took place Monday afternoon at the Merrimack Hotel. The bride was attended by her sister, Miss Hazel Cornell, who wore blue tulle and carried a bouquet of white roses. The best man was Mr. James Gallagher, a brother of the bridegroom. The bride's gift to the bridegroom was a silk umbrella, while the bridegroom's gift to the bride was a pair of gold cuff links. At the close of the ceremony a reception was held at the home of the bride, 13 Alder street, and present were guests from New York, Boston, Worcester and Springfield. The couple left on a honeymoon trip to New York, Boston and Worcester, and after Aug. 1 they will be at home to their friends at 27 Alder street.

## OUT OUR WAY

## Charges Lynn Mayor With Violating Law

BOSTON, July 5.—State Marshal George C. Neal, today was investigating the action of Mayor Marian McPherson of Lynn, who, according to the marshal, acted in violation of the law in issuing two permits for bonfires in that city last Monday evening. Marshal Neal asserted that he or persons designated by him possessed the sole power to issue such permits. He added that because of the fire hazard he had decreed that there be no fires on the night before Independence day.

AFRAID! POOF!  
Miss Theodora Olsen, Brooklyn, knows the Florida gopher turtle she's holding is tame and harmless. And besides he likes her.

## TWO KILLED WHEN TRAIN HIT TRUCK

NEW YORK, July 5.—Three persons were killed and three motor trucks were demolished about 6:20 o'clock yesterday morning when a Pennsylvania wildcat locomotive, plowing through a fog bank at 40 miles an hour, swept unchecked past the Astor Park main station and crashed into a group of newspaper delivery men unloading the New York papers train.

The dead were: Joseph H. Q. Harrison, 70, owner of Harrison's News Stand, and stationery store, Astor Park; John Heckle, 55, manager for Harrison; George Selbert, 37, of South Orange, summer resident, member of the New York Tribune circulating staff; Paul Alexa, Jr., Tacoma, Pa., engineer of the death engine, and Freeman George Kurz, 33, Summit street, Jersey City, who was assigned by County Judge Ruff V. Lawrence in prehearing, on a charge of manslaughter and released in bail of \$1000 each.

The engineer declared all signals were set for a clear way.

## LOCAL THEATRE CHANGES HANDS

The Famous Players-Lasky Corporation, holding body of the Paramount pictures firm, has secured full control of the Merrimack Square theatre, according to an announcement made today, with the remodeling and enlargement of the theatre, announced a few days ago, as the first result of the transaction. The house will soon be closed for a period to allow for the completion of the alterations. No change in management has been announced, and for the present, at least, Walter J. Nelson will continue as manager, and John T. McElwain as assistant manager in connection with the transfer. The Merrimack Square Theatre, Inc., of which firm Alfred S. Black is president, has given control of 50 theatres all over the section to the Famous Players concern.

## MEDALS FOR GOLD STAR MOTHERS

Although bids have been received by the city from three or four local jewelers to supply 150 gold medals to be presented by the city to Lowell's gold star mothers, Mayor Brown will not award the contract until the city council passes its additional appropriation order, included in which is \$2200, for such medals.

The mayor also said today that he contemplated naming a committee, to be named by Col. Charles A. Stevens, to decide upon which one of the several ample medals submitted shall be chosen.

CITY AUDITOR'S REPORT  
The Buckland Printing Co. will print the annual report of the city auditor as a result of competitive bids opened on Monday. The winning bid was \$3 per page for 800 reports.

## Whirled Around Shaft; Fatally Injured

DUDLEY, July 5.—Corliss Lavalée, 47 years old, employed as a painter in the Steven Linen mill was so frightfully injured by being whirled around a side wall shafting today that he died in a few seconds after the power had been shut off. His clothing was caught in the moving shaft and he was whirled around with the shaft. The constant pounding of his legs against the wall wore them off almost to the knees before he was rescued.

## Man Who Crossed Ocean in Sloop Dead

NEWBURYPORT, July 5.—Captain Arthur Houlton Rice, for many years connected with New England's maritime history and long identified with Lloyd's, died here today at the age of 81. Among his exploits on the high seas, was his voyage from Boston to Cowes, England, in command of the yacht Alice, a 48-sloop of 27 tons, in 19 days. This was said to be the smallest yacht to ever cross the Atlantic and the first American yacht to sail to this country from England direct. Captain Rice had been the New York representative of Lloyd's since 1895.

Prospects for a new baseball league in Lowell look up bright following the decision of the Central Hill association of West Centralville to put a team on the diamond. This club proposes to form a miniature league which will embrace the Dixwells, the Libsons, the Centralville Social club, and one or two others as yet unnamed. There has always been great rivalry between these clubs and it has been shown in impromptu ball games, cards, pool, checkers, and bowling.

Working in the evenings till dark the boys have transformed the old Dixwell grounds into a first class diamond and it is here that most of the games will take place. Just at present the members of the club are busy raising sufficient funds to carry out such a project and as soon as the necessary amount has been collected the league will start to function.

## Legal Notices

**Commonwealth of Massachusetts**  
 Middlesex ss. Probate Court.  
 To the heirs-at-law, next of kin, creditors, and all other persons interested in the estate of Andrew J. Boles, who died in Chelmsford, in said County of Middlesex, intestate, leaving estate in said County of Middlesex to be administered, and not leaving a known widow or heir in this Commonwealth, and to the Treasurer and Receiver General of said Commonwealth:

Whereas, a petition has been presented to said Court to grant letters of administration on the estate of said deceased to Albert O. Haines, public administrator in and for said County of Middlesex:

You are hereby cited to appear at a Probate Court to be held at Cambridge in said County of Middlesex, on the seventh day of July, A. D. 1922, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the said public administrator is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Lowell Sun, a newspaper published in Lowell, the last publication to be one day at least before said Court, and is further directed to deliver to the Treasurer and Receiver General of said Commonwealth a copy of said citation fourteen days at least before said Court.

Witness, George F. Lawton, Esquire, First Judge of said Court, this seventh day of June in the year one thousand nine hundred and twenty-two.

F. M. ESTY, Register.
